another country by james baldwin: *The Function of Love in Baldwin's 'Another Country'* Sarah Poppel, 2009-06 Seminar paper from the year 2004 in the subject American Studies - Literature, grade: 2,0, University of Tübingen, language: English, abstract: The novel *Another Country*, published in 1962, was written by James Baldwin, an African-American writer, particularly well known for his social-critical essays. *Another Country*, as a fictional work, serves Baldwin to express several ideas formerly developed in his essay writing and so the novel covers a manifold spectrum of social issues, including race, sexuality and finally love. Love as a central topic in Baldwin's *Another Country* has been analysed by several critics and even Baldwin admits candidly that the novel shows the desperate searches of its characters for the self- knowledge and self-esteem - the identity - without which real love is impossible. But how do these themes work in the novel, what does such a love have to look like and what does it have to include for the individual to be able to learn to see real human beings behind the categories, labels, and prejudices which are imposed by the loveless in a society. This essay undertakes an approximation to these questions mainly on the basis of the novel, considering some of Baldwin's essays and works of critics such as Lorelei

Cederstorm or David Leeming. The first part will focus on an analysis of the relationship with which the novel starts and which can be regarded as a crucial guideline, a negative touchstone for the further development and interpretation of the novel. In Part II a short overview of the other relationships of the novel is provided. By doing this, their connection with the first relationship will be illustrated, until finally it will be possible to suggest how the characters succeed or fail in the matter of love, which Baldwin conceives as [...] a journey two people have to make with each other.

another country by james baldwin: James Baldwin's God Clarence E. Hardy, 2003 James Baldwin's relationship with black Christianity, and especially his rejection of it, exposes the anatomy of a religious heritage that has not been wrestled with sufficiently in black theological and religious studies. In *James Baldwin's God: Sex, Hope, and Crisis in Black Holiness Culture*, Clarence Hardy demonstrates that Baldwin is important not only for the ways he is connected to black religious culture, but also for the ways he chooses to disconnect himself from it. Despite Baldwin's view that black religious expression harbors a sensibility that is often vengeful and that its actual content is composed of illusory promises and empty theatrics, he remains captive to its energies, rhythms, languages, and themes. Baldwin is forced, on occasion, to acknowledge that the religious fervor he saw as an adolescent was not simply an expression of repressed sexual tension but also a sign of the irrepressible vigor and dignified humanity of black life. Hardy's reading of Baldwin's texts, with its goal of understanding Baldwin's attitude toward a religion that revolves around an uncaring God in the face of black suffering, provides provocative reading for scholars of religion, literature, and history. The Author: Clarence Hardy is an assistant professor of religion at Dartmouth College. His articles have appeared in the *Journal of Religion and Christianity and Crisis*.

Gibson (III), 2019-10 2020 Choice Outstanding Academic Title *Salvific Manhood* foregrounds the radical power of male intimacy and vulnerability in surveying each of James Baldwin's six novels. Asserting that manhood and masculinity hold the potential for both tragedy and salvation, Ernest L. Gibson III highlights the complex and difficult emotional choices Baldwin's men must make within their varied lives, relationships, and experiences. In *Salvific Manhood*, Gibson offers a new and compelling way to understand the hidden connections between Baldwin's novels. Thematically daring and theoretically provocative, he presents a queering of salvation, a nuanced approach that views redemption through the lenses of gender and sexuality. Exploring how fraternal crises develop out of sociopolitical forces and conditions, *Salvific Manhood* theorizes a spatiality of manhood, where spaces in between men are erased through expressions of intimacy and love. Positioned at the intersections of literary criticism, queer studies, and male studies, Gibson deconstructs Baldwin's wrestling with familial love, American identity, suicide, art, incarceration, and memory by magnifying the potent idea of salvific manhood. Ultimately, *Salvific Manhood* calls for an alternate reading of Baldwin's novels, introducing new theories for understanding the intricacies of African American manhood and American identity, all within a space where the presence of tragedy can give way to the possibility of salvation.

another country by james baldwin: Intercourse Andrea Dworkin, 2009-09-14 *Intercourse* is a book that moves through the sexed world of dominance and submission. It moves in descending circles, not in a straight line, and as in a vortex each spiral goes down deeper. Its formal model is Dante's *Inferno*; its lyrical debt is to Rimbaud; the equality it envisions is rooted in the dreams of women, silent generations, pioneer voices, lone rebels, and masses who agitated, demanded, cried out, broke laws, and even begged. The begging was a substitute for retaliatory violence: doing bodily harm back to those who use or injure you. I want women to be done with begging. The public censure of women as if we are rabid because we speak without apology about the world in which we live is a strategy of threat that usually works. Men often react to women's words - speaking and

writing - as if they were acts of violence; sometimes men react to women's words with violence. So we lower our voices. Women whisper. Women apologize. Women shut up. Women trivialize what we know. Women shrink. Women pull back. Most women have experienced enough dominance from men - control, violence, insult, contempt - that no threat seems empty. Intercourse does not say, forgive me and love me. It does not say, I forgive you, I love you. For a woman writer to thrive (or, arguably, to survive) in these current hard times, forgiveness and love must be subtext. No. I say no. Intercourse is search and assertion, passion and fury; and its form - no less than its content - deserves critical scrutiny and respect.---- PREFACE.

Corber, 1997-05-22 Challenging widely held assumptions about postwar gay male culture and politics, *Homosexuality in Cold War America* examines how gay men in the 1950s resisted pressures to remain in the closet. Robert J. Corber argues that a form of gay male identity emerged in the 1950s that simultaneously drew on and transcended left-wing opposition to the Cold War cultural and political consensus. Combining readings of novels, plays, and films of the period with historical research into the national security state, the growth of the suburbs, and postwar consumer culture, Corber examines how gay men resisted the organization man model of masculinity that rose to dominance in the wake of World War II. By exploring the representation of gay men in film noir, Corber suggests that even as this Hollywood genre reinforced homophobic stereotypes, it legitimized the gay male gaze. He emphasizes how film noir's introduction of homosexual characters countered the national project to render gay men invisible, and marked a deep subversion of the Cold War mentality. Corber then considers the work of gay male writers Tennessee Williams, Gore Vidal, and James Baldwin, demonstrating how these authors declined to represent homosexuality as a discrete subculture and instead promoted a model of political solidarity rooted in the shared experience of oppression. *Homosexuality in Cold War America* reveals that the ideological critique of the dominant culture made by gay male authors of the 1950s laid the foundation for the gay liberation movement of the following decade.

The contributors' examinations of this rich literary period make it easy to view the half-century from 1948 to 1998 as the Queer Renaissance. Included in *Gay and Lesbian Literature Since World War II* are critical and social analyses of literary movements, novels, short fiction, periodicals, and poetry as well as a look at the challenges of establishing a repository for lesbian cultural history. Specific chapters in this groundbreaking work trace the development of gay poetry in America after World War II; examine how AIDS is represented in the first four Latino novels to deal with the subject matter; and chronicle the birth of lesbian-feminist publishing in the 1970s--showing how it created a flourishing gay literature in the 1980s and 1990s. Other chapters: outline the history of *The Ladder* from its initial publication in 1956 as the official vehicle of the Daughters of Bilitis to its final issue as a privately published literary magazine in 1972 examine Baldwin's 1962 novel *Another Country* and discuss the complicated critical history of this work and its relation to Baldwin's literary reputation--racial, sexual, and political factors are taken into account chart how *Other Voices*, *Other Rooms*, by Truman Capote, and *The House of Breath*, by William Goyen, reveal contradictory genderings of male homosexuality--suggesting an absence of a

Enriching the discourse of masculinity politics, the cross-section of scholarly interrogations of the complexities and contradictions of queer masculinities in education demonstrates that any serious study of masculinity—hegemonic or otherwise—must consider the theoretical and political contributions that the concept of queer masculinity makes to a more comprehensive and nuanced understanding of masculinity itself. The essays adopt a range of approaches from empirical studies to reflective theorizing, and address themselves to three separate educational realms: the K-12 level, the collegiate level, and the level in popular culture, which could be called 'cultural pedagogy'. The wealth of detailed analysis includes, for example, the notion that normative expectations and projections on the part of teachers and administrators unnecessarily reinforce the values and behaviors of heteronormative masculinity, creating an institutionalized loop that disciplines masculinity. At the same time, and for this very reason, schools represent an opportunity to 'provide a setting where a broader menu can be introduced and gender/sexual meanings, expressions, and experiences boys encounter can create new possibilities of what it can mean to be male'. At the collegiate level chapters include analysis of what the authors call 'homosexualization of heterosexual men' on the university dance floor, while the chapters of the third section, on popular culture, include a fascinating analysis of the construction of queer 'counternarratives' that can be constructed watching TV shows of apparently hegemonic bent. In all, this volume's breadth and detail make it a landmark publication in the study of queer masculinities, and thus in critical masculinity studies as a whole.

another country by james baldwin: *Empty Houses* David Kurnick, 2012 According to the dominant tradition of literary criticism, the novel is the form par excellence of the private individual. *Empty Houses* challenges this consensus by reexamining the genre's development from the mid-nineteenth to the mid-twentieth century and exploring what has until now seemed an anomaly--the frustrated theatrical ambitions of major novelists. Offering new interpretations of the careers of William Makepeace Thackeray, George Eliot, Henry James, James Joyce, and James Baldwin--writers known for mapping ever-narrower interior geographies--this book argues that the genre's inward-looking tendency has been misunderstood. Delving into the critical role of the theater in the origins of the novel of interiority, David Kurnick reinterprets the novel as a record of dissatisfaction with inwardness and an injunction to rethink human identity in radically collective and social terms. Exploring neglected texts in order to reread canonical ones, Kurnick shows that the theatrical ambitions of major novelists had crucial formal and ideological effects on their masterworks. Investigating a key stretch of each of these novelistic careers, he establishes the theatrical genealogy of some of the signal techniques of narrative interiority. In the process he illustrates how the novel is marked by a hunger for palpable collectivity, and argues that the genre's discontents have been a shaping force in its evolution. A groundbreaking rereading of the novel, *Empty Houses* provides new ways to consider the novelistic imagination.

Richards, 2015-10-01 This book tells the stories of notable historical figures who, by resisting patriarchal laws condemning adultery, gay and lesbian sex, and sex across the boundaries of religion and race, brought about lasting social and political change. Constitutional scholar David A. J. Richards investigates the lives of leading transgressive artists, social critics, and activists including George Eliot, Benjamin Britten, Christopher Isherwood, Bayard Rustin, James Baldwin, Eleanor Roosevelt, and Margaret Mead. Richards shows how ethical empowerment, motivated by love, allowed these figures to resist the injustices of anti-Semitism, racism, sexism, and homophobia, leading to the constitutional condemnation of these political evils in the United States, Britain, and beyond. Love and law thus grow together, and this book shows how and why. Drawing from developmental psychology (including studies of trauma), political theory, the history of social movements, literature, biography, and law, this book will be a thought-provoking tool for anyone interested in civil rights.
