balanced, and more guided by the power of love.

holler if you hear me gregory michie: The Subaltern Speak Michael W. Apple, Kristen L. Buras, 2013-01-11 The question of whose perspective, experience and history is privileged in educational institutions has shaped curriculum debates for decades. In this insightful collection, Michael W. Apple and Kristen L. Buras interrogate the notion that some knowledge is worth more than others. The Subaltern Speak combines an analysis of the ways in which various forms of power now operate, with a specific focus on spaces in which subaltern groups act to reassert their own perceived identities, cultures and histories.

holler if you hear me gregory michie: How Television Shapes Our Worldview Deborah A. Macey, Kathleen M. Ryan, Noah J. Springer, 2014-05-15 Over the last half of the twentieth century, television has become the predominant medium through which the public accesses information about the world. Through the news, situation comedies, police dramas, and commercials, we learn about the world around us, and our role within it. These genres, narratives, and cultural forms are not simply entertainment, but powerful socializing agents that show the world as we might never see it in real life. How Television Shapes Our Worldview brings together a diverse set of scholars, methodologies, and theoretical frameworks to interrogate the ways through which television molds our vision of the outside world. The essays include advertising and public relations analyses, audience interviews, and case studies that touch on genres ranging from science fiction in the 1970s to current “reality” television. Television truly provides a powerful influence over how we learn about the world around us and understand its social processes.

holler if you hear me gregory michie: Anders lernen, arbeiten und leben Joachim Bröcher, 2021-04-16 Die Zunahme der durch die »Neue Steuerung« des Bildungssystems produzierten emotionalen und sozialen Problematiken in Schule und Gesellschaft ist evident. Die Antwort darauf liegt jedoch nicht in einer präziseren sonderpädagogischen Diagnostik, Förderung und Intervention, sondern im Umbau von Schule, Universität und Gesellschaft. Joachim Bröcher plädiert für eine selbstgestaltete Bildungspflicht, ein bedingungsloses Grundeinkommen, die Gründung von selbstbestimmten Community-Projekten (in denen gearbeitet, gelernt und gelebt wird) sowie eine handlungsorientierte, philosophische Pädagogik. Die »Kontrollgesellschaft« (Gilles Deleuze) verwandelt sich so in eine Zivilgesellschaft der Entrepreneur*innen.

holler if you hear me gregory michie: Is This English? Race, Language, and Culture in the Classroom Bob Fecho, 2018-08-24 This is the story of a white high school English teacher, Bob Fecho, and his students of color who mutually engage issues of literacy, language, learning, and culture. Through his journey, Fecho presents a method of “critical inquiry” that allows students and teachers to take intellectual and social risks in the classroom to make meaning together and, ultimately, to transform literacy education. Features the voices, beliefs, and struggles of urban adolescents and their teachers. “This is a book about what it means to care about both who you teach and what you teach. It is a book about what it means to understand the broader social purposes of schooling and education as possible sites for the advancement of human liberation and the cultivation of democracy. Is this English? Probably. But it is also life.” —From the Foreword by Gloria Ladson-Billings “At a time when most discussion of literacy focuses on either high-stakes tests or phonics, it is refreshing to read Bob Fecho’s journey in doing critical inquiry, crossing cultural borders, and engaging passionately and totally with high school students in an urban school.” —Sonia Nieto, author of What Keeps Teachers Going? “Issues of race and struggles with self-identity eloquently permeate this text. This book is a fascinating read about life in a small urban learning community. I highly recommend it to others.” —Jennifer Obidah, University of California, Los Angeles
