official sat question of the day: *The Inequality Machine* Paul Tough, 2021-03-04 'Indelible and extraordinary, a powerful reckoning with just how far we've allowed reality to drift from our ideals.' Tara Westover, New York Times Book Review We're told that universities are our greatest driver of social mobility. But it's a lie. The Inequality Machine is a damning exposé of how the university system ingrains injustice at every level of American society. Paul Tough, bestselling author of *How Children Succeed*, exposes a world where small-town colleges go bust, while the most prestigious raise billions every year; where overstretched admissions officers are forced to pick rich candidates over smart ones; where black and working-class students are left to sink or swim on uncaring campuses. Along the way, he uncovers cutting-edge research from the academics leading the way to a new kind of university - one where students succeed not because of their background, but because of the quality of their minds. The result is a call-to-arms for universities that work for everyone, and a manual for how we can make it happen. 'Humanizes the process of higher education . . . When Amy applied to university, she thought she'd be judged purely on her merits. But she never thought that her family background would have as much impact on her future as her grades. When KiKi arrived at university, she knew she could be the only black woman in her class. But she didn't know how out of place she would feel, nor how unwelcoming her peers would be. When Orry graduated from university, he was told he'd probably land a six-figure salary. But he wasn't told he'd end up barely scraping a living wage, struggling to feed his children. Drawing on the stories of hundreds of American students, *The Years That Matters Most* is a revelatory account of a university system in crisis. official sat question of the day: Riddles of Belief...and Love: A Story Lin Zhe, 2010 Beijing-based writer Lin Zhe's novel *Waipode Gucheng*, on which this translation is faithfully based, paints an unforgettable picture of an ordinary family caught up in the maelstrom that was China's most recent century. Her narrative ranges across the entire length of China, to California and back again, to the battlefields of the Anti-Japanese War of Resistance and the brutal struggle sessions of the Cultural Revolution. But it always returns to this family's home in Old Town, that archetypal, old-fashioned, and vanishing place steeped in the traditions of South China. Ms. Lin examines the inner strength that sustains people's lives in their darkest hours, when religious and political faith falter. And yet, a vein of irony and droll humor runs through this powerful story. Lin Zhe's novel may be understood as a love story, memoir, history, or allegory. For the non-Chinese reader it provides a rare and moving insight into Chinese lives in a century of fearsome upheaval.

official sat question of the day: Tears of the Lotus Roger E. McCarthy, 2006-07-19 In 1949 Mao Tse-tung first sent his People's Liberation Army into the eastern Tibetan province of Amdo; he followed with an invasion of the province of Kham in 1950. Ill-prepared, disorganized and badly outnumbered, the small Tibetan armed forces were no match for the invaders. At first the Chinese persuaded many Tibetans that their intent was merely to help them share in the future greatness

and wealth that Mao had promised all. In a short time the Tibetan tribesmen realized, however, that the true purpose of the invasion was otherwise. Their religion and their freedom were at stake. Despite the repeated efforts by the Dalai Lama and others in Lhasa to dissuade them, the people resisted the Chinese--at great cost: over one million dead in the 1950s. This work includes accounts of the role of Tibetans who collaborated with the Chinese invaders, the resistance movement, the Dalai Lama's lack of support for the movement, and how even so the resistance made it possible for the Dalai Lama to escape from Lhasa in 1959.
