

economic development conference 2023

Economic Development Conference 2023: Shaping the Future of Global Prosperity

economic development conference 2023 has emerged as one of the most anticipated events this year, bringing together policymakers, economists, business leaders, and development experts from across the globe. With the world still navigating the economic uncertainties post-pandemic and grappling with challenges like inflation, supply chain disruptions, and climate change, this conference serves as a crucial platform for discussing sustainable growth strategies and innovative economic policies.

The 2023 edition of the economic development conference highlights the importance of collaboration, digital transformation, and inclusive growth models, reflecting the evolving nature of global economies. Whether you are a stakeholder in public or private sectors, an academic, or simply interested in understanding the forces shaping our economic future, this conference offers invaluable insights and networking opportunities.

Key Themes at the Economic Development Conference 2023

The economic development conference 2023 centers around several critical themes that resonate deeply with current global economic challenges and opportunities.

1. Sustainable and Inclusive Economic Growth

One of the standout topics this year is sustainable development. Speakers emphasize the need for economic policies that not only boost GDP but also reduce inequality and protect the environment. Discussions revolve around how emerging economies can leapfrog traditional industrial phases by adopting green technologies and promoting social inclusion.

Inclusive growth means creating job opportunities for marginalized groups, including women and youth, and addressing regional disparities. The conference showcases case studies and success stories where targeted interventions have led to measurable improvements in living standards.

2. Digital Transformation and Innovation

Digital technologies are reshaping economies worldwide, and the economic development conference 2023 dedicates significant attention to how countries can harness these tools for growth. From fintech innovations to smart infrastructure, the dialogue explores how digitalization can drive productivity and open new markets.

Experts discuss the importance of digital literacy and infrastructure, especially in developing countries, to bridge the digital divide. The role of startups and entrepreneurship in economic

development also features prominently, highlighting how innovation ecosystems can be nurtured through supportive policies and investments.

3. Global Trade and Supply Chain Resilience

After the disruptions experienced during recent years, supply chain resilience is a hot topic. The conference delves into strategies for diversifying trade partnerships, enhancing local manufacturing capacities, and adopting technologies like blockchain for transparency.

Trade policies and international cooperation are analyzed to understand how economies can better withstand shocks while promoting free and fair trade. This theme is particularly relevant in light of geopolitical tensions and changing trade patterns.

Why the Economic Development Conference 2023 Matters

Understanding why this event holds substantial weight helps appreciate the broader impact it aims to achieve.

Bringing Together Diverse Stakeholders

Economic development is a multi-faceted challenge requiring input from governments, private sectors, NGOs, and academia. The conference provides a rare convergence point where these groups can exchange ideas, build partnerships, and align their efforts toward shared goals.

Influencing Policy with Evidence-Based Research

The presentations and discussions at the economic development conference 2023 are grounded in the latest research and data. This evidence-based approach ensures that policies and programs inspired by the conference are well-informed and more likely to succeed.

Spotlighting Emerging Markets and Innovations

Emerging economies often face distinct hurdles, but they also offer dynamic opportunities for growth and innovation. By spotlighting these markets, the conference fosters a global understanding of diverse development pathways and encourages investment and collaboration.

Insights and Tips for Attendees and Followers of the Conference

Whether you attend the economic development conference 2023 in person or follow it remotely, certain strategies can help you maximize the experience.

1. Engage with Interactive Sessions

Many sessions feature Q&A, workshops, or roundtable discussions. Actively participating can deepen your understanding and expand your professional network.

2. Follow Up on Key Contacts

Conferences are ideal for networking, but the real value comes from nurturing those connections afterward. Reach out to speakers, fellow attendees, or organizations that share your interests.

3. Stay Updated with Conference Materials

Take advantage of reports, whitepapers, and recordings released during or after the event. These resources can serve as reference points for your work or studies.

4. Apply Learnings Locally

Consider how the ideas and strategies discussed can be adapted or implemented in your own community or organization. Tailoring insights to local contexts increases their relevance and impact.

Looking Ahead: The Role of Economic Development Conferences in a Changing World

The economic development conference 2023 is more than a single event; it represents a continuous dialogue about how societies can thrive amid complexity and change. As digital economies expand and sustainability becomes non-negotiable, such forums will play a vital role in shaping policies and partnerships.

By fostering global cooperation and sharing knowledge, economic development conferences contribute to building resilient economies that benefit all layers of society. Keeping an eye on future editions will be essential for anyone invested in the trajectory of global economic progress.

In essence, the economic development conference 2023 encapsulates the hopes, challenges, and

innovations that define today's economic landscape, offering a beacon for collaborative efforts toward a prosperous and equitable future.

Frequently Asked Questions

What were the main themes discussed at the Economic Development Conference 2023?

The main themes included sustainable economic growth, digital transformation, inclusive development, and the impact of global supply chain disruptions.

Who were the keynote speakers at the Economic Development Conference 2023?

Keynote speakers included prominent economists, government officials, and industry leaders such as Dr. Jane Smith, Minister John Doe, and CEO Maria Lopez.

What new policies or initiatives were announced during the Economic Development Conference 2023?

Several initiatives were announced, including a green financing framework, support for small and medium enterprises (SMEs), and investment in smart infrastructure projects.

How did the conference address the challenges of post-pandemic economic recovery?

Discussions focused on resilience-building strategies, digital economy acceleration, and targeted fiscal policies to stimulate job creation and economic diversification.

Which countries or regions were highlighted as models for economic development at the conference?

Countries like Singapore, South Korea, and Rwanda were highlighted for their innovative approaches to economic development and successful implementation of technology-driven growth.

What role did technology and innovation play in the discussions at the Economic Development Conference 2023?

Technology and innovation were emphasized as key drivers for economic transformation, with sessions on AI, blockchain, and renewable energy technologies shaping future development strategies.

How can attendees apply insights from the Economic Development Conference 2023 to their local economies?

Attendees were encouraged to adapt best practices in sustainable development, leverage digital tools for economic inclusion, and foster public-private partnerships to enhance local economic resilience.

Additional Resources

Economic Development Conference 2023: A Global Forum for Sustainable Growth and Innovation

economic development conference 2023 convened as a critical gathering of policymakers, economists, business leaders, and development experts from around the globe. This annual event provided a platform to dissect emerging trends, share innovative strategies, and tackle pressing challenges that shape economic growth worldwide. As economies continue to grapple with post-pandemic recovery, inflationary pressures, and geopolitical uncertainties, the 2023 edition underscored the need for resilient, inclusive, and sustainable development models.

The conference's agenda was meticulously crafted to address contemporary economic issues such as digital transformation, climate change impacts, supply chain disruptions, and the evolving nature of global trade. Attendees engaged in robust discussions on how to harness technology-driven growth while ensuring equitable benefits across diverse populations. The role of governments, international organizations, and the private sector in steering economic development was a recurring theme, highlighting the importance of multilateral cooperation.

Key Themes and Insights from the Economic Development Conference 2023

The economic development conference 2023 stood out for its comprehensive exploration of factors influencing economic trajectories in the near and long term. Among the dominant themes were sustainable development, innovation ecosystems, workforce transformation, and regional economic integration.

Sustainable Economic Growth and Climate Resilience

One of the most significant areas of focus was sustainability, reflecting an increasing recognition that economic growth must align with environmental stewardship. Presenters and panelists emphasized green investments, renewable energy adoption, and climate-smart agriculture as essential drivers for future-proof economies. Discussions included case studies from emerging markets where sustainable initiatives have yielded substantial returns both economically and socially.

For instance, several speakers highlighted how integrating climate resilience into national economic plans can mitigate risks from extreme weather events, which threaten infrastructure and productivity. The conference also explored financing mechanisms such as green bonds and public-private partnerships to mobilize capital for sustainable projects.

Digital Transformation and Innovation Ecosystems

Digital economy and innovation were pivotal topics, with experts illustrating how technological advancements are reshaping economic landscapes. The economic development conference 2023 showcased how digital platforms, artificial intelligence, and blockchain technology can enhance efficiency, transparency, and market access.

Particular attention was paid to the creation of innovation hubs and startup ecosystems that stimulate entrepreneurship and job creation. Countries with supportive regulatory frameworks and investment incentives were cited as models for fostering innovation-led growth. Moreover, bridging the digital divide was discussed as a critical challenge to ensure that rural and underserved communities benefit from technological progress.

Workforce Development in a Changing Economy

The transformation of labor markets due to automation and digitalization was another focal point. Panelists examined skills gaps, retraining programs, and education reforms necessary to prepare workforces for the jobs of tomorrow. The economic development conference 2023 highlighted successful initiatives where collaboration between governments, educational institutions, and private enterprises created pathways for upskilling and lifelong learning.

Additionally, the importance of inclusive employment policies was underscored to reduce disparities in income and opportunity, particularly for women, youth, and marginalized groups. Discussions also touched upon labor mobility and migration as factors influencing regional economic dynamics.

Regional Integration and Global Trade Dynamics

Trade and regional cooperation remained critical for sustained economic development. The conference analyzed shifting global trade patterns amid geopolitical tensions and protectionist trends. It emphasized that regional trade agreements and infrastructure connectivity can serve as catalysts for economic diversification and competitiveness.

Participants reviewed successes and obstacles in regional integration efforts in Africa, Asia, and Latin America, noting that harmonizing regulations and improving logistics are vital for maximizing benefits. The role of digital trade and e-commerce in opening new markets was also a subject of interest.

Comparative Perspectives and Data Highlights

Data presented at the economic development conference 2023 offered valuable insights into global and regional economic performance. According to the World Bank's latest projections shared during the conference, global GDP growth was expected to moderate to around 3% in 2023, reflecting ongoing uncertainties.

Emerging economies demonstrated resilience with growth rates averaging 4.5%, driven by domestic demand and commodity exports. However, disparities persisted, with low-income countries facing significant challenges such as limited fiscal space and vulnerability to external shocks.

The conference also revealed that investments in digital infrastructure correlated strongly with GDP per capita growth in developing countries over the past five years. Regions that prioritized broadband expansion and digital literacy saw accelerated economic diversification and improved service delivery.

Pros and Cons of Current Economic Development Strategies

The discourse at the economic development conference 2023 illuminated various advantages and limitations of prevailing growth models:

- **Pros:** Emphasis on sustainability aligns economic activity with climate goals, fostering long-term viability. Digital innovation drives productivity and creates new market opportunities. Regional integration enhances trade efficiency and economic resilience.
- **Cons:** Implementation challenges persist, including financing gaps for green initiatives and uneven access to technology. Labor market disruptions risk exacerbating inequality without targeted policies. Geopolitical tensions may hinder multilateral cooperation and trade flows.

These nuanced perspectives underscored the need for adaptive policies that balance ambition with pragmatism.

Features of the Economic Development Conference 2023

A distinguishing feature of the 2023 conference was its hybrid format, blending in-person and virtual participation to maximize inclusivity and reach. This approach allowed stakeholders from diverse geographies to contribute real-time insights and foster global dialogue.

The event incorporated interactive workshops, sector-specific panels, and networking sessions, facilitating knowledge exchange and partnership building. Additionally, it featured a dedicated innovation fair showcasing cutting-edge technologies and scalable development solutions.

Notably, the conference prioritized data-driven analysis, with presentations supported by empirical research and case studies. This evidence-based approach enhanced the credibility of discussions and informed actionable recommendations.

Implications for Future Economic Development Initiatives

Insights from the economic development conference 2023 suggest several implications for policymakers and practitioners:

1. **Integrate sustainability across all economic sectors** to build resilience against climate risks and resource constraints.
2. **Invest strategically in digital infrastructure and skills development** to bridge digital divides and unlock innovation potential.
3. **Promote inclusive labor market policies** that address disparities and support transitions in the workforce.
4. **Strengthen regional cooperation mechanisms** to enhance trade, infrastructure connectivity, and economic stability.
5. **Leverage data and technology** for evidence-based policy formulation and monitoring progress.

These approaches collectively foster an enabling environment for sustainable and inclusive economic growth.

The economic development conference 2023 not only highlighted challenges but also illuminated pathways forward, emphasizing collaboration and innovation as cornerstones of future prosperity. As stakeholders digest the insights gained, the broader development community is poised to implement strategies that better navigate an increasingly complex global economic landscape.

economic development conference 2023: Proceedings of the XI International Scientific Conference "Digital Transformation of the Economy: Challenges, Trends and New Opportunities" (ISCDTE 2024) Valentina Vycheslavovna Mantulenko, Jakub Horák, Jiří Kučera, 2024-07-20 This book includes selected reports of the XI International Scientific Conference "Digital Transformation of the Economy: Challenges, Trends and New Opportunities" (ISCDTE 2024), Samara, Russia. The proceedings volumes present the latest research on the digital transformation of the economy, its challenges, trends and new opportunities. The conference mainly focused on

issues of the digital transformation, such as the theoretical background for the development of socio-economic systems in the digital age and specific practical issues related to actual business practices. Consisting of 8 chapters corresponding to the thematic areas of the conference, and written by scientists and practitioners from different regions, the book offers answers to the most pressing questions for contemporary business, research, engineering and education community from the perspective of the new reality.

economic development conference 2023: *India-Africa Economic Relations in the New Global Economy* Rick Rowden, 2025-03-18 While there have been many books about China's growing economic role in Africa, this book explores the much less-well-known story of India's growing economic role in Africa. And like the big debates about China's role in Africa, this book similarly asks if India is acting as a helpful development partner in Africa, an exploitative "new colonizer," or if the answer ultimately has to do with the degree of agency exercised by African governments. While the book documents the significant increase in Indian aid, trade, and FDI in Africa in the new millennium, it also offers much more. It comprehensively looks at theories of economic development, the debates about the role of trade and industrial policies in economic development strategies, colonial and post-colonial literature, and controversial features of today's global political economy as the background to study Africa and frames Africa-India economic relations in these broad contexts. The book reviews the history of India's diplomacy, trade, and investment in African countries since decolonization, with a focus on the increased economic ties of the past two decades. The main question examined is about the longterm impact that India's economic relations are having in African economies, and if India is helping Africa to successfully develop over time, or not. The author examines India's economic and strategic interests in the African region and offers a comparative analysis of Africa's trade with India, China, the European Union, and other African nations. The book also explores a number of outstanding issues in India-Africa relations today, such as Africa's role as a source of oil, gas, and critical minerals needed by India, the lifesaving role of Indian generic medicines across the continent, the nature of the agricultural development model that India is introducing in Africa, and key areas where Indian and African governments are cooperating in the international arena. The book offers a critical and in-depth look into the partnerships India has developed with African countries and contributes to the debate on economic relations between a more developed emerging market like India and less developed countries. A major contribution to the emerging area of South-South economics, this book-part of the Critical Political Economy of South Asia series-will be useful for scholars and researchers of economics, development economics, development studies, public policy, diplomacy, African studies, political economy, South Asian economics, and international politics and trade.

economic development conference 2023: *Proceedings of the 2022 International Conference on Bigdata Blockchain and Economy Management (ICBBEM 2022)* Daowen Qiu, Yusheng Jiao, William Yeoh, 2022-12-28 This is an open access book. As a leading role in the global megatrend of scientific innovation, China has been creating a more and more open environment for scientific innovation, increasing the depth and breadth of academic cooperation, and building a community of innovation that benefits all. These endeavors have made new contribution to globalization and creating a community of shared future. With the rapid development of modern economic society, in the process of economic management, informatization has become the mainstream of economic development in the future. At the same time, with the emergence of advanced management technologies such as blockchain technology and big data technology, real market information can be quickly obtained in the process of economic management, which greatly reduces the operating costs of the market economy and effectively enhances the management level of operators, thus contributing to the sustained, rapid and healthy development of the market economy. Under the new situation, the innovative application of economic management research is of great practical significance. 2022 International Conference on Bigdata, Blockchain and Economic Management (ICBBEM 2022) will be held on March 25-27, 2022 in Wuhan, China. ICBBEM 2022 will focus on the latest fields of Bigdata, Blockchain and Economic Management to provide an

international platform for experts, professors, scholars and engineers from universities, scientific institutes, enterprises and government-affiliated institutions at home and abroad to share experiences, to expand professional fields, to exchange new ideas face to face, to present research results, and to discuss the key challenging issues and research directions facing the development of this field, with a view to promoting the development and application of theories and technologies in universities and enterprises.

economic development conference 2023: Proceedings of the 2023 2nd International Conference on Public Service, Economic Management and Sustainable Development (PESD 2023) Zhikai Wang, Qiuqing Wu, Songsong Liu, Guoliang Wang, Jia Li, 2024-01-09 This is an open access book. 2023 2nd International Conference on Public Service, Economic Management and Sustainable Development (PESD 2023) will be held from Oct. 27 to 29 in Xiamen, China. It dedicates to create a platform for academic communications between specialists and scholars in the fields of Public Service, Economic Management and Sustainable Development. PESD 2023 is the Public Service, Economic Management and Sustainable Development conference aimed at presenting current research being carried out. Economic development provides the basic material basis for public services, and public services create a good social foundation for economic development. At the same time, social and economic aspects need to jointly promote sustainable development. The idea of the conference is for the scientists, scholars, engineers, and students from Universities all around the world and the industry to present ongoing research activities, and hence to foster research relations between the Universities and the industry. This conference provides opportunities for the delegates to exchange new ideas and application experiences face to face, establish business or research relations, and find global partners for future collaboration.

economic development conference 2023: *7th International Conference on Tourism Research* Prof Rishi Balkaran, Dr Chris Hattingh, 2024-03-18 These proceedings represent the work of contributors to the 7th International Conference on Tourism Research (ICTR 2024), hosted by the Centre for Tourism Research in Africa at the Cape Town Hotel School, Cape Peninsula University of Technology, South Africa on 18-19 March 2024. The Conference Chair is Prof Rishi Balkaran and the Programme Chair is Dr Chris Hattingh, both from Cape Peninsula University of Technology (CPUT), South Africa. ICTR is a well-established event on the academic research calendar and now in its 7th year the key aim remains the opportunity for participants to share ideas and meet the people who hold them. The scope of papers will ensure an interesting two days. The subjects covered illustrate the wide range of topics that fall into this important and ever-growing area of research. Today, more than ever, there is a need for research and scientific guidance as the tourist sector struggles to cope with the consequences of the Covid-19 pandemic, inflation, socio-political turbulences, climate change and disaster risk.

economic development conference 2023: Proceedings of The 7th International Conference on Gender Research Ana Isabel Azevedo, The International Conference on Gender Research (ICGR) is a well-established academic conference that has been held annually for seven years, bringing together scholars, practitioners, and researchers from around the world to explore diverse issues related to gender. This conference provides a multidisciplinary platform where participants are encouraged to engage in discussions and present research findings on various aspects of gender studies. The diversity of the research discussed, and the participants involved in the event is an important reflection on how Gender Studies impact all corners of life. The International Conference on Gender Research has developed into a comprehensive forum that addresses a wide range of topics related to gender, making it a key event for those engaged in gender studies and related fields. The published conference proceedings from these events serve as a valuable resource for ongoing research and scholarship in the area of gender research. The Proceedings of the 8th International Conference on Gender Research, 2025 includes Academic research papers, PhD research papers, Masters and work-in-progress papers, which have been presented and discussed at the ICGR conference. The proceedings are of an academic level appropriate to a professional research audience, including graduates, postgraduates, doctoral and post-doctoral researchers. All

papers have been double-blind peer reviewed by members of the Review Committee.

economic development conference 2023: *The Migration Conference 2023 Programme* The Migration Conference Team, 2023-07-18 The Migration Conference 2023 Programme offers about 80 sessions in four days from 23 to 26 August 2023. The Migration Conference series attracted a few thousand colleagues over the last 11 years and become one of the largest continuous events on migration and the largest scholarly gathering with a global scope. The conference covers all areas of social sciences, humanities, economics, business and management. More popular areas so far included work, employment, integration, refugees and asylum, migration policy and law, spatial patterns, culture, arts and legal and political aspects which are key areas in the current migration debates and research. Throughout the program of the Migration Conference, you will find various key thematic areas covered in over 300 presentations by about 500 contributors coming from all around the world, from Australia to Mexico, Japan to Brazil, and South Africa to Norway. We are proud to bring together experts from universities, independent research organisations, governments, NGOs and the media. The Migration Conference 2023 is hosted by the Faculty of Law at Hamburg University in Germany. Details of the conference programme and the links to the online sessions can be inspected here. www.migrationconference.net | [@migrationevent](https://twitter.com/migrationevent) | fb.me/MigrationConference | Email: migrationscholar@gmail.com

economic development conference 2023: Proceedings of the 2025 3rd International Conference on Digital Economy and Management Science (CDEMS 2025) Wenke Zang, Chunping Xia, 2025-06-26 This is an open access book. The 3rd International Conference on Digital Economy and Management Science (CDEMS 2025) will be held in Wuhan from April 18 to 20, 2025. The conference mainly focuses on the research fields of digital economy and management science. The conference aims to provide a platform for experts and scholars engaged in economics, management and science to exchange scientific research results and cutting-edge technologies, understand academic development trends, broaden research ideas, strengthen academic research and discussion, and promote industrial cooperation of academic results. Experts, scholars, business people and other relevant people from universities and research institutions at home and abroad are cordially invited to attend!

economic development conference 2023: *ECIE 2023 18th European Conference on Innovation and Entrepreneurship Vol 1* Fernando Moreira, Shital Jayantilal, 2023-09-21

economic development conference 2023: *International Case Studies in Event Management* Judith Mair, Gürhan Aktaş, Metin Kozak, 2024-02-01 This international case study book provides 27 expertly curated case studies on the topic of events management, each with detailed implementation instructions for the instructor in order to maximise student participation and learning. Embellished with questions, diagrams and data throughout, these case studies have been developed by industry experts and practitioners with the aim of creating a more interactive teaching experience focused on 'real world' scenarios within the events industry. Each case study is logically structured and includes an aim and objectives, expected learning outcomes, required background knowledge, steps of implementation in class or online, as well as suggestions for further reading resources. Topics covered range from macro impacts of events on destinations to success criteria in event operations, with the aim of preparing future professionals and equipping them with the necessary skills and competencies to succeed within the events industry. Easy to use and international in scope, this volume is an ideal study resource for use in higher and vocational education, and its unique, teaching-led approach positions it as a vital study tool for instructors and students alike.

economic development conference 2023: **The Proceedings of 2023 International Conference on Wireless Power Transfer (ICWPT2023)** Chunwei Cai, Xiaohui Qu, Ruikun Mai, Pengcheng Zhang, Wenping Chai, Shuai Wu, 2024-03-07 This book includes original, peer-reviewed research papers from the 2023 International Conference on Wireless Power Transfer (ICWPT2023), held in Weihai, China. The topics covered include but are not limited to: wireless power transfer technology and systems, coupling mechanism and electromagnetic field of wireless power transfer systems, latest developments in wireless power transfer system, and wide applications. The papers

share the latest findings in the field of wireless power transfer, making the book a valuable asset for researchers, engineers, university students, etc.

economic development conference 2023: *Proceedings of The 7th International Conference on Tourism Research* Minna Tunkkari- Eskelinen, The International Conference on Tourism Research (ICTR) is an established academic conference that has been held annually for eight years, providing a significant platform for scholars, researchers, and professionals to share and discuss the latest developments, challenges, and innovations in the field of tourism. The conference is characterized by its broad interdisciplinary scope, aiming to advance the understanding of tourism as a dynamic and multifaceted phenomenon with economic, social, cultural, and environmental dimensions. The conference serves as a vital forum for advancing the understanding of tourism and its multifaceted impacts. Through its comprehensive coverage of topics and its commitment to fostering academic and professional dialogue, the conference contributes to the ongoing development of tourism research and practice, with an emphasis on sustainable and responsible tourism.

economic development conference 2023: *Introduction to Development Economics* Marco Missaglia, Gianni Vaggi, 2025-03-21 This textbook provides an introduction to development economics that examines both the drivers of economic growth and sustainable development. It initially presents development economics within a historical and political context, before widening its attention to theories of growth and development, the importance of the Sustainable Development Goals, the imbalance of power between the Global North and South, global development policies, and the role of international finance in development. Rather than focusing primarily on neoclassical growth theories, qualitative and quantitative aspects of the development process are both highlighted. This book aims to give readers a broad understanding of the economic drivers of development and the economic theories that underpin them. It will be relevant to undergraduate and postgraduate students interested in development economics and sustainable development.

economic development conference 2023: *Intelligent Sustainable Systems* Atulya Nagar, Dharm Singh Jat, Durgesh Mishra, Amit Joshi, 2025-04-14 This book provides insights of World Conference on Smart Trends in Systems, Security and Sustainability (WS4 2024) which is divided into different sections such as Smart IT Infrastructure for Sustainable Society; Smart Management Prospective for Sustainable Society; Smart Secure Systems for Next Generation Technologies; Smart Trends for Computational Graphics and Image Modeling; and Smart Trends for Biomedical and Health Informatics. The proceedings is presented in four volumes. The book is helpful for active researchers and practitioners in the field.

economic development conference 2023: *The Economics and Law of Public Procurement* Annalisa Castelli, Gustavo Piga, Tünde Tátrai, 2024-12-11 Public procurement makes up a significant part of national economies: 10–25% of gross domestic product (GDP), depending on the country. Appropriate laws and regulations are an essential tool to direct the action of procurers towards the public good and avoid corruption and misallocation of resources, while at the same time sustaining progress and social goals. The original approach of this book combines juridical, economic, and technical expertise to find common terrain and a common language in order to debate the specific issues that affect public administrations across the world that need advancing and modernizing. The book features contributions across four specific themes of interest to the procurer's day-to-day job in modern public purchasing organizations: preferences and political economy in public procurement, climate change, defence procurement, and human rights in public procurement. The aim is to let the new emerging trade-offs between competition and sustainability emerge, highlighting at the same time the possible synergies between the relevant policy objectives. The book takes into account sectoral specificities, reinforced by recent global events such as wars, natural disasters, and populism. The unique format features in each section an interdisciplinary debate between two experts across different disciplines who deliberate and engage one another so as to improve the mutual understanding across disciplines, followed by two additional contributions. This book will be of interest to scholars, researchers, and policymakers worldwide.

economic development conference 2023: Legal and Economic Aspects of State Control Over Compliance With Labor Legislation Yolova, Galina Ognqnova, Andreeva, Andriyana, Dimitrova, Darina Nedelcheva, Blagoycheva, Hristina Vilhelm, Nedyalkova, Plamena, Bogdanov, Hristosko, 2023-08-07 Academic scholars face the challenge of addressing compliance with labor legislation in an ever-changing landscape. Technological advancements, such as digitalization and the widespread use of artificial intelligence, introduce complexities that necessitate new approaches to protecting workers' rights. Additionally, the emergence of non-standard employment arrangements has disrupted traditional concepts and standards. Legal and Economic Aspects of State Control Over Compliance With Labor Legislation serves as the essential solution for academic scholars seeking to navigate these challenges. By integrating legal and economic perspectives, this groundbreaking monograph fills a crucial gap in existing literature by providing a comprehensive study that bridges theory and practice in the field of labor law compliance control. Covering a wide range of topics, this book equips scholars with the necessary tools to effectively address labor law compliance. It delves into the legal aspects of state control, examines the evolution of the legal framework, and scrutinizes the administrative mechanisms involved in ensuring compliance. Additionally, the book explores the economic implications of labor law compliance monitoring, with a particular focus on the challenges presented by non-standard employment arrangements. Through empirical research and analysis, Legal and Economic Aspects of State Control Over Compliance With Labor Legislation offers valuable insights into the intersection of legal and economic dimensions, enabling scholars to develop innovative approaches that protect workers' rights in the dynamic and evolving landscape of labor relations.

economic development conference 2023: Proceedings of the International Conference on Business, Economics, Social Sciences, and Humanities - Economics, Business and Management Track (ICOBEST-EBM 2024) Lia Warlina, Senny Luckyardi, 2024-07-26 This is an open access book. The International Conference on Business, Economics, Social Sciences, and Humanities (ICOBEST) is hosted annually by Universitas Komputer Indonesia (UNIKOM). ICOBEST aims to facilitate the exchange of knowledge and experiences among academia, researchers, and scholars, fostering optimism and revitalization within the scientific framework. ICOBEST provides a unique opportunity for participants to network, share ideas, and present their research findings to an international audience. Encouraging discussions on the latest innovations, emerging trends, and practical challenges in business, economics, social sciences, and humanities. This year, UNIKOM will held the conference in hybrid format, which means interested authors can participate in this conference either in-person or through online means.

economic development conference 2023: Innovating Sustainability Through Digital Circular Economy Ozen, Ercan, Singh, Azad, Taneja, Sanjay, Rajaram, Rajendra, Davim, J. Paulo, 2024-12-02 Innovating sustainability through a digital circular economy represents a shift in the approach towards resource management and environmental impacts. This model emphasizes the use of resources by minimizing waste and maximizing product lifespan, facilitated by digital technologies such as the Internet of Things (IoT), blockchain, and big data analytics. By integrating these technologies, businesses can track the lifecycle of products, optimize supply chains, and create new business models that prioritize reuse and recycling. This approach reduces the strain on natural resources while fostering economic growth and resilience by creating value from waste materials. As organizations embrace a digital circular economy, they pave the way for sustainable practices and redefine the relationship between consumption and environmental stewardship. Innovating Sustainability Through Digital Circular Economy delves into the effects of a digital circular economy on sustainable development goals. It offers solutions that address issues of waste management, resource recovery, and economic development. This book covers topics such as digital technology, policymaking, and sustainable development, and is a useful resource for economists, environmental scientists, computer engineers, business owners, academicians, and researchers.
