Battery Life Expectations

Depending on usage, the Grundig YB P2000 typically offers around 6 to 8 hours of continuous playback or talk time. Standby time may extend up to several days. It's a good idea to keep an eye on the LED indicators or your connected device's battery status to avoid unexpected power loss.

Audio Issues

If sound is distorted, too quiet, or only coming from one ear:

- Check the fit and adjust ear tips for a better seal.
- Clean the earphones gently to remove any debris.
- Test with another device to isolate whether the issue is with the headset or the source.
- Reset the headset if persistent problems occur (refer to the manual for reset instructions).

If your headset battery doesn't last as long as expected:

- Make sure you fully charge the headset before use.
