The superpowers gather together to try and find out why a star in the heavens, millions of miles from earth, is pulling on the axis of the earth causing massive gravitational destabilization. The Star continues to vibrate sending out massive magnetic force fields, that are pulling more and more on the magnetic core of our planet. The subterranean plates two thousand miles under the oceans are distorting and overheating from the magnetic pull from the star, which can unleash millions and millions of tons of molten lava into the oceans, thus burning our planet if the plates cannot be stopped from magnetically turning on themselves. Two rogue nuclear submarines under the poles,

threaten to overheat from the intensity of the oceans water temperature, melting the polar caps and flooding the world. The super powers consult the Vatican having heard of the doomsday prophecies from the valley of the king recently unearthed. The codes of the prophecies cannot be broken in full. The prophecies tell of the doomsday Armageddon, three thousand years old, written in old Arabic and mathematical codes not seen on this earth before. Decoders and mathematicians work day and night in the deep Vatican crepts trying desperately to find answers of what lies ahead for mankind. Realizing all is lost, and believing the doomsday prophesy, the superpowers agree to help the Vatican and do all in their power to find out why the star is pulling on our axis, and why it is vibrating, so as to pinpoint where on earth this deed of insemination will be committed. All communications systems around the globe are shut down, so as the magnetic effects of the star will not turn nations against nation with the release of nuclear weapons from failed computer systems. The world will be pulled from it's axis by the Star, if the magnetic pull cannot be stabilized, sending the earth into outer space in a freezing ball of ice, or the world will incinerate by the overheating of the subterranean plates, or the world will be flooded by the melting of the ice caps. Day by day the Catholics do battle against the forces of evil, in their quest for the one host girl. Day by day t

This has followed the increased use of such characters as metaphors, with novelists and critics identifying specific meanings and topics behind them. This book aims to unravel the shapeshifting trope. Rather than pursue a case-based study, the works are grouped around specific themes--adolescence, gender, sexuality, race, disability, addiction, and spirituality--that are explored through the metaphor of shapeshifting. Because of the transformative possibilities of this metaphor and its flexibility, the shapeshifter has the potential to change how we see our world. With coverage of iconic fantasy texts and a focus on current works, the book engages with the shapeshifting figure in popular culture from the United States, Canada, the United Kingdom, and Australia.
