cast of secret society 2021: Revisiting the Past in Museums and at Historic Sites Anca I. Lasc, Andrew McClellan, Anne Söll, 2021-11-01 Revisiting the Past in Museums and at Historic Sites demonstrates that museums and historic spaces are increasingly becoming backdrops for all sorts of appropriations and interventions that throw new light upon the objects they comprise and the pasts they reference. Rooted in new scholarship that expands established notions of art installations, museums, period rooms, and historic sites, the book brings together contributions from scholars from intersecting disciplines. Arguing that we are witnessing a paradigm shift concerning the place of historic spaces and museums in the contemporary imaginary, the volume shows that such institutions are merging traditional scholarly activities tied to historical representation and inquiry with novel modes of display and interpretation, drawing them closer to the world of entertainment and interactive consumption. Case studies analyze how a range of interventions impact historic spaces and conceptions of the past they generate. The book concludes that museums and historic sites are reinventing themselves in order to remain meaningful and to play a role in societies aspiring to be more inclusive and open to historical and cultural debate. Revisiting the Past in Museums and at Historic Sites will be of interest to students and faculty who are engaged in the study of museums, art history, architectural and design history, social and cultural history, interior design, visual culture, and material culture.

cast of secret society 2021: Cultural Capitalism Bradley A. Gorski, 2025-03-15 Cultural Capitalism explores Russian literature's eager embrace of capitalism in the post-Soviet era. When the Soviet Union fell, books were suddenly bought and sold as commodities. Russia's first bestseller lists brought attention and prestige. Even literary prizes turned to the market for legitimacy. The rise of capitalism entirely transformed both the economics and the aesthetics of Russian literature. By reconstructing the market's influence on everything from late-Soviet paper shortages to the prose of neoimperialism, Cultural Capitalism reveals Russian literature's exuberant hopes for and deep disappointments in capitalism. Only a free market, it was hoped, could cure endemic book deficits and liberate literature from ideological constraints. But as the market came to dominate literature, it imposed an ideology of its own, one that directed literary development for decades. Through archival research, original interviews, and provocative readings of literary texts, Bradley A. Gorski immerses the reader in both the economic and aesthetic worlds of post-Soviet Russian literature to reveal a cultural logic dominated by capitalism. The Russian 1990s and early 2000s saw markets introduced, adopted, and debated at an accelerated pace, all against the backdrop of a socialist past, staging the polemics between capitalism and culture in high drama and sharp relief. But the market forces at the center of the post-Soviet transition are fundamental to cultural trends worldwide. By revealing the complexities of Russia's story, Cultural Capitalism mounts a critique that cuts across national borders and provides a new way of seeing culture in the post-1989 era worldwide.

cast of secret society 2021: The Palgrave Handbook of Steam Age Gothic Clive Bloom, 2021-02-03 By the early 1830s the old school of Gothic literature was exhausted. Late Romanticism, emphasising as it did the uncertainties of personality and imagination, gave it a new lease of life. Gothic—the literature of disturbance and uncertainty—now produced works that reflected domestic fears, sexual crimes, drug filled hallucinations, the terrible secrets of middle class marriage,

imperial horror at alien invasion, occult demonism and the insanity of psychopaths. It was from the 1830s onwards that the old gothic castle gave way to the country house drawing room, the dungeon was displaced by the sewers of the city and the villains of early novels became the familiar figures of Dr Jekyll and Mr Hyde, Dracula, Dorian Grey and Jack the Ripper. After the death of Prince Albert (1861), the Gothic became darker, more morbid, obsessed with demonic lovers, blood sucking ghouls, blood stained murderers and deranged doctors. Whilst the gothic architecture of the Houses of Parliament and the new Puginesque churches upheld a Victorian ideal of sobriety, Christianity and imperial destiny, Gothic literature filled these new spaces with a dread that spread like a plague to America, France, Germany and even Russia. From 1830 to 1914, the period covered by this volume, we saw the emergence of the greats of Gothic literature and the supernatural from Edgar Allan Poe to Emily Bronte, from Sheridan Le Fanu to Bram Stoker and Robert Louis Stevenson. Contributors also examine the fin-de-siècle dreamers of decadence such as Arthur Machen, M P Shiel and Vernon Lee and their obsession with the occult, folklore, spiritualism, revenants, ghostly apparitions and cosmic annihilation. This volume explores the period through the prism of architectural history, urban studies, feminism, 'hauntology' and much more. 'Horror', as Poe teaches us, 'is the soul of the plot'.

cast of secret society 2021: *Radical Secrecy* Clare Birchall, 2021-04-06 *Reimagining transparency and secrecy in the era of digital data* When total data surveillance delimits agency and revelations of political wrongdoing fail to have consequences, is transparency the social panacea liberal democracies purport it to be? This book sets forth the provocative argument that progressive social goals would be better served by a radical form of secrecy, at least while state and corporate forces hold an asymmetrical advantage over the less powerful in data control. Clare Birchall asks: How might transparency actually serve agendas that are far from transparent? Can we imagine a secrecy that could act in the service of, rather than against, a progressive politics? To move beyond atomizing calls for privacy and to interrupt the perennial tension between state security and the public's right to know, Birchall adapts Édouard Glissant's thinking to propose a digital "right to opacity." As a crucial element of radical secrecy, she argues, this would eventually give rise to a "postsecret" society, offering an understanding and experience of the political that is free from the false choice between secrecy and transparency. She grounds her arresting story in case studies including the varied presidential styles of George W. Bush, Barack Obama, and Donald Trump; the Snowden revelations; conspiracy theories espoused or endorsed by Trump; WikiLeaks and guerrilla transparency; and the opening of the state through data portals. Postsecrecy is the necessary condition for imagining, finally, an alternative vision of "the good," of equality, as neither shaped by neoliberal incarnations of transparency nor undermined by secret state surveillance. Not least, postsecrecy reimagines collective resistance in the era of digital data.

cast of secret society 2021: *The Presentation of Self in Everyday Life* Erving Goffman, 2021-09-29 A notable contribution to our understanding of ourselves. This book explores the realm of human behavior in social situations and the way that we appear to others. Dr. Goffman uses the metaphor of theatrical performance as a framework. Each person in everyday social intercourse presents himself and his activity to others, attempts to guide and control the impressions they form of him, and employs certain techniques in order to sustain his performance, just as an actor presents a character to an audience. The discussions of these social techniques offered here are based upon detailed research and observation of social customs in many regions.

cast of secret society 2021: Ballots and Barricades Ronald Aminzade, 2021-04-13 Using class analysis to understand the dynamics of political conflict in mid-nineteenth-century France, Ronald Aminzade explores political activity among workers in three industrialized French cities--Toulouse, Saint-étienne, and Rouen. A comparative case-study design enables the author to analyze how the complex interaction between industrialization, class relations, and party development fostered revolutionary communes in some cities but not others. Challenging traditional theories of industrialization and revolution, Aminzade innovatively uses narratives to provide a historically grounded analysis of the failed municipal revolutions of 1871 and the triumph of liberal-democratic institutions in France. In each of these cities, distinctive patterns of capitalist industrialization and class restructuring intersected with shifting political opportunities at the national level to produce local republican parties with different ideologies, strategies, and alliances. Focusing on changing relations between republican parties and male workers, whose identities and economic standing were in transition, Aminzade examines struggles within local parties among liberal, radical, and socialist republicans. The outcome of these struggles, he argues, shaped the willingness of workers to embrace the ballot box or take to the barricades.
