While tackling subjects such as identity, politics, religion, art, and history, these autobiographical tales are written with a biting humor, placing Vowell solidly in the tradition of Mark Twain and Dorothy Parker. Vowell searches the streets of Hoboken for traces of the town's favorite son, Frank Sinatra. She goes under cover of heavy makeup in an investigation of goth culture, blasts cannonballs into a hillside on a father-daughter outing, and maps her family's

Sarah Vowell exposes the glorious conundrums of American history and culture with wit, probity, and an irreverent sense of humor. With *Assassination Vacation*, she takes us on a road trip like no other—a journey to the pit stops of American political murder and through the myriad ways they have been used for fun and profit, for political and cultural advantage. From Buffalo to Alaska, Washington to the Dry Tortugas, Vowell visits locations immortalized and influenced by the spilling of politically important blood, reporting as she goes with her trademark blend of wisecracking humor, remarkable honesty, and thought-provoking criticism. We learn about the jinx that was Robert Todd Lincoln (present at the assassinations of Presidents Lincoln, Garfield, and McKinley) and witness the politicking that went into the making of the Lincoln Memorial. The resulting narrative is much more than an entertaining and informative travelogue—it is the disturbing and fascinating story of how American death has been manipulated by popular culture, including literature, architecture, sculpture, and—the author's favorite—historical tourism. Though the themes of loss and violence are explored and we make detours to see how the Republican Party became the Republican Party, there are all kinds of lighter diversions along the way into the lives of the three presidents and their assassins, including mummies, show tunes, mean-spirited totem poles, and a nineteenth-century biblical sex cult.

take the cannoli sarah vowell: My Way John Martin Fischer, 2006-03-02 This is a selection of essays on moral responsibility that represent the major components of John Martin Fischer's overall approach to freedom of the will and moral responsibility. The collection exhibits the overall structure of Fischer's view and shows how the various elements fit together to form a comprehensive framework for analyzing free will and moral responsibility. The topics include deliberation and practical reasoning, freedom of the will, freedom of action, various notions of control, and moral accountability. The essays seek to provide a foundation for our practices of holding each other (and ourselves) morally and legally accountable for our behavior. A crucial move is the distinction between two kinds of control. According to Fischer, regulative control involves freedom to choose and do otherwise (alternative possibilities), whereas guidance control does not. Fischer contends that guidance control is all the freedom we need to be morally responsible agents. Further, he contends that such control is fully compatible with causal determinism. Additionally, Fischer argues that we do not need genuine access to alternative possibilities in order for there to be a legitimate point to practical reasoning. Fischer's overall framework contains an argument for the contention that guidance control, and not regulative control, is associated with moral responsibility, a sketch of a comprehensive theory of moral responsibility (that ties together responsibility for actions, omissions, consequences, and character), and an account of the value of moral responsibility. On this account, the value of exhibiting freedom (of the relevant sort) and thus being morally responsible for one's behavior is a species of the value of artistic self-expression.

take the cannoli sarah vowell: Them Jon Ronson, 2011-06-28 A wide variety of extremist groups -- Islamic fundamentalists, neo-Nazis -- share the oddly similar belief that a tiny shadowy elite rule the world from a secret room. In *Them*, journalist Jon Ronson has joined the extremists to track down the fabled secret room. As a journalist and a Jew, Ronson was often considered one of *Them* but he had no idea if their meetings actually took place. Was he just not invited? *Them* takes us across three continents and into the secret room. Along the way he meets Omar Bakri Mohammed, considered one of the most dangerous men in Great Britain, PR-savvy Ku Klux Klan Grand Wizard Thom Robb, and the survivors of Ruby Ridge. He is chased by men in dark glasses and unmasked as a Jew in the middle of a Jihad training camp. In the forests of northern California he even witnesses CEOs and leading politicians -- like Dick Cheney and George Bush -- undertake a bizarre owl ritual. Ronson's investigations, by turns creepy and comical, reveal some alarming things about the looking-glass world of us and them. *Them* is a deep and fascinating look at the lives and minds of extremists. Are the extremists onto something? Or is Jon Ronson becoming one of them?

take the cannoli sarah vowell: I Only Say This Because I Love You Deborah Tannen, 2001-07-31 Why does talk in families so often go in circles, leaving us tied up in knots? In this illuminating book, Deborah Tannen, the linguist and bestselling author of *You Just Don't Understand* and many other books, reveals why talking to family members is so often painful and problematic even when we're all adults. Searching for signs of acceptance and belonging, we find signs of disapproval and rejection. Why do the seeds of family love so often yield a harvest of criticism and judgment? In *I Only Say This Because I Love You*, Tannen shows how important it is, in family talk, to learn to separate word meanings, or messages, from heart meanings, or metamessages —unstated but powerful meanings that come from the history of our relationships and the way things are said. Presenting real conversations from people's lives, Tannen reveals what is actually going on in family talk, including how family conversations must balance the longing for connection with the desire for control, as we struggle to be close without giving up our freedom. This eye-opening book explains why grown women so often feel criticized by their mothers; and why mothers feel they can't open their mouths around their grown daughters; why growing up male or female, or as an older or younger sibling, results in different experiences of family that persist throughout our lives; and much, much more. By helping us to understand and redefine family talk,

Tannen provides the tools to improve relationships with family members of every age.

These are characters who criticise the power of those in the castle or the skyscraper, and earn their keep by breaking the law. Outlaws break categories too. They are fact and fiction, opposition and product, culture and economy, natural justice and organized crime. Beginning with Robin Hood stealing from the rich, and covering along the way pirates, smugglers, highwaymen, the Wild West, the Mafia and many others, Martin Parker offers a fresh and exciting insight into the counter culture of the outlaw – one that rebels against the more dominant and traditional forms of economy and organization and celebrates a life free from wage slavery. *Alternative Business* is a highly readable, entertaining book that will prove a helpful study tool for all students and lecturers working on organizations, cultural studies and criminology.

Lawrence Weschler is not simply a superb reporter, essayist, and cultural observer; he is also an uncanny collector and connector of wonders. In *Vermeer in Bosnia*, whether he is reporting on the aftermath of the Yugoslav wars (and noticing, for example, how centuries earlier Vermeer had had to invent the peace and serenity we so prize in his work today from a youth during which all of Europe had been as ravaged as Bosnia) or dissecting the special quality of light in his beloved hometown of Los Angeles, Weschler's perceptions are often startling, his insights both fresh and profound. Included here is Weschler's remarkable profile of Roman Polanski—written years before the release of *The Pianist*, yet all but predicting the director's confrontation with the Holocaust in that film—alongside an equally celebrated portrait of Ed Weinberger, a young designer crushed and yet hardly bowed by an extreme form of Parkinson's disease. Here is Weschler limning his own experience as the grandson of an eminent Weimar-era composer, and then as the befuddled father of an eminently fetching daughter. Here is Weschler on Art Spiegelman, David Hockney, Ed Kienholz, and Wislawa Szymborska. Here, in short, are some of the most dazzling pieces from Lawrence Weschler's own brimming cabinet of marvels.

take the cannoli sarah vowell: Worship and Waste Daniel J. D. Stulac, 2025-08-14 *Worship and Waste* is the third installment in Stulac's Christological Companion series, which focuses on the books of Judges (*Gift of the Grotesque*), 1 Samuel (*Tragedy of the Commons*), and now 2 Samuel. As the first two volumes demonstrate, Stulac's refreshing approach to biblical interpretation combines hard-won exegetical insights with poignant memoir and incisive reflections on culture, art, and Christian spirituality. Picking up the biblical storyline where *Tragedy* left off, *Worship and Waste* invites readers to sink deeply into the Bible's paradoxical portrait of King David—a rapist-murderer caught between God's unconditional love and his own brutality. Carefully avoiding moralisms, Stulac guides his readers through 2 Samuel's graphic depictions of sin by insisting that the text continually looks forward to Jesus Christ, the ultimate Davidic King. "David's Punishment thoroughly penetrates God's Promise," observes Stulac, "but at the same time, God's Promise still governs the execution of his Punishment. The two 'forevers' of 2 Samuel are forever mixed." Will David's tragedy transform into comedy before the final curtain falls? Will hope survive? "Can a ruined House," asks Stulac, "find within its suffering the durable Promises of God?"

take the cannoli sarah vowell: Uniform Prejudice Thomas C. Rust, 2025-03-25 This book examines the historical experiences of LGBTQ+ individuals facing discrimination in the early 20th-century military before same-sex acts were explicitly illegal. Centered on the court-martial of Private Laurence Edgar Moon in 1912, the book sheds light on the broader landscape of prejudice prior to the explicit criminalization of same-sex acts in 1916. Through Moon's case, the narrative delves into the interplay of gender, sexuality, and power within the military and society. Army officers enforced a simplistic binary understanding of sexuality and masculinity, linking moral character to sexual behavior. Moon's experience challenges this narrow view, revealing the complexities surrounding turn-of-the-century notions of masculinity and sexual identity. Employing a

microhistorical approach grounded in queer theory, the book uncovers often-overlooked stories of queer service members who faced discrimination yet remained dedicated to their duty. It also highlights the evolving language and legal definitions related to same-sex acts and the cultural anxieties surrounding them, illustrating the importance of queer theory and microhistory in understanding marginalized experiences. *Uniform Prejudice* offers a compelling narrative of a century-long history of prejudice and persecution faced by LGBTQ+ individuals in the military. The engaging microhistorical approach captivates readers while addressing significant theoretical and historical themes. This accessible book is aimed at scholars, students, and general readers interested in LGBTQ+ history, military history, and the ongoing challenges and advancements of LGBTQ+ individuals in the U.S. military, urging a more inclusive and intersectional perspective.

take the cannoli sarah vowell: *Weak Nationalisms* Douglas Dowland, 2019-07-01 The question "What is America?" has taken on new urgency. *Weak Nationalisms* explores the emotional dynamics behind that question by examining how a range of authors have attempted to answer it through nonfiction since the Second World War, revealing the complex and dynamic ways in which affects shape the literary construction of everyday experience in the United States. Douglas Dowland studies these attempts to define the nation in an eclectic selection of texts from writers such as Simone de Beauvoir, John Steinbeck, Charles Kuralt, Jane Smiley, and Sarah Vowell. Each of these texts makes use of synecdoche, and *Weak Nationalisms* shows how this rhetorical technique is variously driven by affects including curiosity, discontent, hopefulness, and incredulity. In exploring the function of synecdoche in the creative construction of the United States, Dowland draws attention to the evocative politics and literary richness of nationalism and connects critical literary practices to broader discussions involving affect theory and cultural representation.
