

sub 2 hour half marathon training plan 12 weeks

****Sub 2 Hour Half Marathon Training Plan 12 Weeks: Your Guide to Breaking the Two-Hour Mark****

Sub 2 hour half marathon training plan 12 weeks is an achievable goal for many runners looking to improve their speed and endurance. Whether you're a beginner aiming to set a new personal best or an intermediate runner wanting to hit that coveted sub-2-hour finish, a carefully structured training plan can make all the difference. Over the course of 12 weeks, this plan will guide you through incremental progressions, balancing intensity and recovery to optimize your performance on race day.

If you've been wondering how to approach your half marathon training efficiently, this article will break down the essential components, including pacing strategies, workout types, nutrition tips, and recovery techniques. Let's dive into how to train smartly and confidently for a sub-2-hour half marathon.

Understanding the Sub 2 Hour Half Marathon Goal

Running a half marathon in under two hours means maintaining an average pace of about 9:09 per mile (or approximately 5:41 per kilometer) over 13.1 miles. It's a realistic yet challenging milestone that requires a blend of endurance, speed, and mental toughness.

Many runners struggle with pacing or hit a wall if they push too hard early on. That's why a training plan designed specifically for the sub 2 hour target focuses on building a strong aerobic base, improving lactate threshold, and incorporating speed workouts to increase overall running economy.

Why Choose a 12-Week Training Plan?

Twelve weeks is an ideal timeframe for most runners to prepare for a half marathon without risking injury or burnout. It allows enough time to gradually increase weekly mileage, include various training sessions, and taper properly before race day.

Moreover, a 12-week plan is flexible enough to accommodate your current fitness level, whether you're starting from a moderate base or looking to sharpen your speed. Committing to a plan this length ensures consistency and helps establish healthy training habits.

Core Components of a Sub 2 Hour Half Marathon Training Plan 12 Weeks

Before jumping into the weekly breakdown, let's take a look at the key training elements that this plan will incorporate.

1. Easy Runs and Base Mileage

Building a solid aerobic foundation is crucial. Easy runs at a conversational pace help develop endurance without excessive fatigue. These runs should comprise the majority of your weekly mileage and lay the groundwork for harder sessions.

2. Tempo Runs

Tempo runs, also known as threshold runs, are performed at a comfortably hard pace — typically around your 10K race pace or slightly slower. These workouts teach your body to sustain faster speeds for longer periods and raise your lactate threshold, allowing you to delay fatigue during the race.

3. Interval Training

Speedwork sessions such as intervals or repeats improve your VO2 max, running economy, and leg turnover. Examples include 400-meter or 800-meter repeats at faster than race pace with recovery jogs in between. These workouts are intense but highly effective for boosting speed.

4. Long Runs

Long runs build endurance and mental stamina. They gradually increase in distance, often peaking around 10 to 12 miles. Some long runs may include segments at race pace to simulate race conditions.

5. Cross-Training and Strength Work

Incorporating cross-training activities like cycling, swimming, or yoga can improve overall fitness and reduce injury risk. Strength training targeting the core, glutes, and legs enhances running efficiency and power.

6. Rest and Recovery

Recovery days and proper sleep are essential for adaptation. Overtraining can lead to injury or burnout, so listening to your body and allowing rest days is vital.

Sample 12-Week Sub 2 Hour Half Marathon Training Plan

Here's an overview of how a balanced training week might look, followed by a week-by-week progression guide.

Weekly Structure Example

- **Monday:** Rest or cross-training
- **Tuesday:** Interval training (e.g., 6x800m at 5K pace)
- **Wednesday:** Easy run (3-5 miles)
- **Thursday:** Tempo run (3-6 miles at tempo pace)
- **Friday:** Rest or easy recovery run
- **Saturday:** Long run (starting at 6 miles, building to 12 miles)
- **Sunday:** Easy recovery run or cross-training

Progression Overview

1. **Weeks 1-4:** Establish your base with mostly easy runs and introduce tempo sessions.
2. **Weeks 5-8:** Increase intensity with longer tempo runs and interval workouts; build long run distance.
3. **Weeks 9-10:** Peak training intensity; long runs approach race distance, race pace segments included.
4. **Weeks 11-12:** Taper period; reduce volume to allow for recovery and optimal race-day performance.

Key Tips for Success with Your Sub 2 Hour Half Marathon Training Plan 12 Weeks

Prioritize Consistency Over Speed

Many runners make the mistake of pushing too hard early on. Consistent training at the right intensities leads to better improvements and reduces injury risk. Follow the plan, trust the process, and avoid skipping recovery days.

Listen to Your Body

If you feel persistent aches or excessive fatigue, take an extra rest day or reduce intensity. It's better to miss a workout than to risk a setback. Adaptability is part of smart training.

Practice Race Day Nutrition and Hydration

During your long runs, experiment with fueling strategies to find what works best. Whether gels, sports drinks, or natural foods, knowing how to keep your energy levels up during the race can prevent hitting the dreaded wall.

Use Technology Wisely

GPS watches, heart rate monitors, and running apps can help you maintain proper pacing and track progress. For a sub 2 hour half marathon, pacing consistency is key, so tools that provide real-time feedback are invaluable.

Incorporate Mental Training

Running 13.1 miles isn't just physical. Visualization, goal setting, and positive self-talk can improve your mental toughness. On race day, staying calm and focused helps you maintain pace and push through fatigue.

Adjusting the Plan Based on Your Starting Fitness

If you're a beginner with limited running experience, don't be discouraged if the plan feels

challenging at first. Focus on building up your base in the initial weeks and reduce the intensity of speed sessions if needed. Conversely, if you're an experienced runner, you might add extra mileage or faster intervals, but always be mindful of recovery.

Remember, the goal is to run a sub 2 hour half marathon, not just to complete the training plan. Quality over quantity, and gradual progression, will get you there.

Final Thoughts on Preparing for Your Sub 2 Hour Half Marathon

Embarking on a sub 2 hour half marathon training plan 12 weeks is an exciting journey that combines discipline, patience, and smart strategy. By following a well-rounded plan that balances endurance, speed, and recovery, you position yourself for success on race day.

Stay motivated by tracking your improvements, celebrating small milestones, and connecting with fellow runners for support. Whether you're running through city streets or scenic trails, crossing that finish line under two hours will be an incredible achievement that reflects your hard work and commitment. Lace up, stay consistent, and enjoy the process—your sub 2 hour half marathon is within reach!

Frequently Asked Questions

What is a sub 2 hour half marathon training plan?

A sub 2 hour half marathon training plan is a structured running schedule designed to help runners complete a 13.1-mile race in under two hours, typically involving a mix of easy runs, long runs, speed workouts, and rest days over a set training period.

Is 12 weeks enough time to train for a sub 2 hour half marathon?

Yes, 12 weeks is generally sufficient to train for a sub 2 hour half marathon, especially for runners with a basic fitness level. Consistent training and gradual mileage buildup are key to achieving this goal.

What types of workouts are included in a 12-week sub 2 hour half marathon plan?

The plan typically includes easy runs, long runs to build endurance, tempo runs to improve pace, interval training for speed, hill workouts for strength, and rest or cross-training days for recovery.

How many days per week should I run in a sub 2 hour half marathon training plan?

Most 12-week sub 2 hour half marathon training plans recommend running 4 to 5 days per week, balancing intensity and recovery to prevent injury and improve performance.

What pace should I aim for during tempo runs in a sub 2 hour half marathon plan?

During tempo runs, aim for a pace about 15 to 30 seconds per mile slower than your goal race pace, which helps improve your lactate threshold and overall speed endurance.

How important is long run pacing in a sub 2 hour half marathon training plan?

Long run pacing is important for building endurance; these runs should generally be done at a conversational, comfortable pace, about 60-90 seconds per mile slower than your goal race pace.

Should I include strength training in my 12-week half marathon plan?

Yes, incorporating strength training 1-2 times per week helps improve running economy, prevent injuries, and build overall muscular endurance beneficial for a sub 2 hour half marathon.

How can I prevent injury during my 12-week sub 2 hour half marathon training?

Prevent injury by following a gradual mileage increase, incorporating rest and recovery days, doing proper warm-ups and cool-downs, listening to your body, and including cross-training and strength exercises.

Sub 2 Hour Half Marathon Training Plan 12 Weeks: A Professional Review and Analysis

sub 2 hour half marathon training plan 12 weeks is a widely sought-after program by runners aiming to break the two-hour barrier in the 21.1-kilometer race distance. Achieving this milestone requires a balance of endurance, speed, and strategic preparation. This article offers an analytical examination of a typical 12-week training plan designed to help intermediate runners reach this target, focusing on the plan's structure, key components, and practical considerations.

Understanding the Goal: Breaking the Two-Hour Barrier

Running a half marathon in under two hours equates to maintaining an average pace of approximately 9 minutes and 9 seconds per mile (or about 5:41 per kilometer). While this pace may seem accessible to many recreational runners, it demands disciplined training, consistency, and a well-rounded approach to fitness. The 12-week window is a common timeframe for targeted half marathon training, allowing enough time to build mileage safely and incorporate speed work without overtraining.

Why a 12-Week Training Plan?

A 12-week duration strikes a practical balance between giving the body ample time to adapt and maintaining motivation. Shorter programs might rush progression and increase injury risk, while longer plans might dilute focus or require more advanced periodization. For runners targeting a sub 2 hour finish, a structured 12-week schedule supports gradual mileage increases, integrates recovery phases, and emphasizes key workouts such as tempo runs, intervals, and long runs.

Key Components of a Sub 2 Hour Half Marathon Training Plan

A typical sub 2 hour half marathon training plan over 12 weeks includes several crucial elements designed to improve both aerobic capacity and running economy. The main components are:

- **Base Mileage Development:** Gradually increasing weekly mileage to enhance endurance without causing burnout.
- **Speed and Tempo Workouts:** Including intervals and tempo runs to boost lactate threshold and running pace.
- **Long Runs:** Weekly sustained efforts at a slower pace to build stamina.
- **Recovery Days:** Incorporating rest or low-intensity runs to facilitate adaptation and prevent injury.
- **Cross-Training and Strength Training:** Optional but beneficial for muscular balance and injury prevention.

Weekly Mileage and Progression

Most sub 2 hour half marathon training plans start with a weekly mileage range of 15 to 20 miles and peak around 30 to 35 miles. The increases are typically incremental—around 10% per week—to allow for physiological adaptation. This progression ensures runners build the necessary aerobic base without excessive fatigue.

Speed Sessions and Their Role

Speed sessions are integral for improving pace sustainability. Common workouts include:

- **Interval Training:** Repeats of 400 to 1600 meters at faster than goal race pace, with recovery jogs.
- **Tempo Runs:** Sustained runs at or slightly faster than half marathon pace, usually 20-40 minutes long.
- **Hill Repeats:** Short bursts uphill to develop strength and running economy.

These sessions train the body to clear lactate more efficiently and maintain a faster pace for longer durations.

Sample Weekly Breakdown of a 12-Week Sub 2 Hour Half Marathon Training Plan

Below is an example outline illustrating the typical structure of the plan:

1. **Monday:** Rest or easy recovery run (3-5 miles)
2. **Tuesday:** Speed intervals (e.g., 6x800m at 10K pace with rest)
3. **Wednesday:** Easy run (4-6 miles)
4. **Thursday:** Tempo run (3-5 miles at half marathon pace)
5. **Friday:** Rest or cross-training
6. **Saturday:** Long run (starting at 6-8 miles, building to 10-12 miles)
7. **Sunday:** Easy recovery run or rest

This combination ensures a mix of intensity and recovery, which is essential for performance gains.

Adaptations for Individual Needs

While the above plan provides a general framework, personalization is key. Factors such as prior running experience, injury history, and lifestyle commitments influence training volume and intensity. Additionally, some runners may benefit from incorporating strength training sessions twice a week, focusing on core stability and lower-body strength, which can improve running economy and reduce injury risk.

Comparing Sub 2 Hour Half Marathon Plans: What to Look For

Not all training plans are created equal. When evaluating different 12-week sub 2 hour half marathon training plans, consider the following:

- **Progressive Overload:** Does the plan gradually increase mileage and intensity?
- **Variety of Workouts:** Are intervals, tempo runs, and long runs balanced effectively?
- **Rest and Recovery:** Are rest days strategically placed to prevent overtraining?
- **Flexibility:** Can the plan be adjusted for missed workouts or varying fitness levels?

Plans that rigidly demand exact adherence without room for adjustment may lead to frustration or injury, especially for amateur runners.

Pros and Cons of Following a Sub 2 Hour Half Marathon Training Plan

- **Pros:**
 - Structured approach increases chances of hitting the goal time.
 - Incorporates scientifically backed workout types for performance gains.
 - Helps maintain motivation through progressive goals.

- **Cons:**

- Potential risk of injury if the plan is too aggressive.
- May require significant time commitment that some runners find challenging.
- Less flexibility can be problematic for runners with unpredictable schedules.

Nutrition and Recovery: Critical Factors in Training Success

A sub 2 hour half marathon training plan over 12 weeks demands not only physical effort but also attention to nutrition and rest. Adequate carbohydrate intake fuels long runs and speed sessions, while proteins support muscle repair. Hydration strategies before, during, and after workouts influence performance and recovery quality.

Sleep and rest days play a vital role in allowing the body to rebuild and strengthen. Neglecting recovery can result in diminished performance and increased injury risk, undermining the benefits of the training program.

Tracking Progress and Adjusting the Plan

Regularly monitoring training metrics such as pace, heart rate, and perceived exertion can inform necessary adjustments. For example, if a runner finds tempo runs increasingly difficult despite consistent training, it may indicate a need for additional rest or a recalibration of target paces. Technology such as GPS watches and mobile apps facilitate data collection and analysis, enhancing the training experience.

Final Thoughts on the Sub 2 Hour Half Marathon Training Plan 12 Weeks

Executing a sub 2 hour half marathon training plan over 12 weeks requires commitment, structured workouts, and a balanced approach to rest and nutrition. While the plan provides a solid framework, individual variation in fitness and lifestyle means it should be adapted accordingly. When implemented thoughtfully, this training strategy can significantly improve endurance, speed, and confidence, bringing runners closer to that coveted finish time under two hours.

Sub 2 Hour Half Marathon Training Plan 12 Weeks

sub 2 hour half marathon training plan 12 weeks: Running Fitness - From 5K to Full Marathon David Ross, 2015-02-20 Running Fitness presents a structured and practical training guide aimed at a large portion of the running community, including beginners and those looking to improve in the sport. Author David Ross, a runner of many years experience, provides a training path that develops running capability from a simple 5K race up to full marathon, whilst making the sport easily accessible to those who wish to enjoy many years of fulfilment, success and longevity. Learn about warm-up and cool-down drills, speed and hill training, long runs, race pace, recovery and rest, plus cross training, core fitness, diet and energy supplements.

sub 2 hour half marathon training plan 12 weeks: The Official Rock 'n' Roll Guide to Marathon & Half-Marathon Training Mario Fraioli, 2013-04-01 Rock your run with The Official Rock 'n' Roll Guide to Marathon and Half-Marathon Training! This practical, encouraging guide makes preparing for marathon and half-marathon as rewarding as race day. With coaching advice, running workouts, and training programs from Coach Mario Fraioli, you'll enjoy training and cross the finish line feeling great. Coach Mario will guide you from sign-up to finish line. With his expert advice, you'll choose your race, set your goals, select the right gear, and move swiftly through a beginner or experienced marathon or half-marathon training program. Fraioli covers all of running's most important topics: dynamic warm-up exercises, smart and realistic workouts, healthy sports nutrition and hydration guidelines, tips for quick and complete recovery, strength training and crosstraining, advice to treat common running injuries, and strategies for race week and race day. He offers useful tools like running pace charts, a sweat loss calculator, and a preview of each Rock 'n' Roll race course. The Rock 'n' Roll Marathon and Half-Marathon series is the world's most popular running series because each race is a fun and feel-good challenge. Now with the Official Rock 'n' Roll Guide, you'll be ready to rock your marathon or half-marathon.

sub 2 hour half marathon training plan 12 weeks: Nell McAndrew's Guide to Running Nell McAndrew, Lucy Waterlow, 2015-04-09 Through her bestselling exercise DVDs and incredible running achievements, including running a sub three hour marathon, Nell McAndrew has built a reputation as a fitness expert. Running continues to rise in popularity, but many of us don't know where to start. This book shares Nell's love of running and will inspire you to take up the sport, as well as helping anyone already running to improve their performance. Nell and co-author Lucy Waterlow, also an experienced runner, will equip you, whatever your age or ability, with the know-how to make running part of your life and help you learn to love training and competing as much as they do. Find out how to get started with running and how to improve with specific sections on nutrition, marathon running and women's running (including exercising during and after pregnancy). This is a visual, practical and insightful guide offering informative and fun coverage with tips, accurate up-to-date information and the experiences of 'real' runners you can identify with.

sub 2 hour half marathon training plan 12 weeks: Marathonning for Mortals John

Bingham, Jenny Hadfield, 2003-05-02 Once considered a feat for superhuman athletes, the marathon is now within every mortal's grasp. Former couch potato John Bingham has joined forces with coach Jenny Hadfield to create a winning plan that works for every mortal--even you. In *Marathoning for Mortals*, you'll find the courage to train, the willpower to persevere, and the tenacity to finish one mile after another. John and Jenny stick with you every step of the way, from your first insecure thoughts to your last-minute jitters to your supreme joy at the finish line. In *Marathoning for Mortals*, you'll find:

- 8 training programs to run, run-walk, walk-run, or walk the half-marathon and marathon
- The advice you need to physically, mentally, and spiritually reach your dreams
- Tips to help you customize your training, buy the right shoes and apparel, and eat the best foods
- Guidance for common motivational, physical, and emotional roadblocks

Join John and Jenny on an amazing transformative journey where the finish line is just the beginning.

sub 2 hour half marathon training plan 12 weeks: How to Run a Marathon in 12 Weeks

David Morgan, Running a marathon is one of the ultimate fitness challenges, but with the right training and preparation, anyone can cross the finish line. *How to Run a Marathon in 12 Weeks* is the definitive guide to training for a marathon in just three months, designed for runners of all levels. This book provides a detailed, easy-to-follow training plan, covering everything from building endurance and strength to injury prevention and nutrition. Whether you're a complete beginner or an experienced runner looking to improve your time, this book will help you train smarter, stay motivated, and conquer 26.2 miles with confidence.

sub 2 hour half marathon training plan 12 weeks: Hal Higdon's Half Marathon Training

Hal Higdon, 2016-04-01 Hal Higdon's name is synonymous with running. As contributing editor of *Runner's World* and best-selling author, he has helped countless runners achieve their distance goals. Now, he's created the definitive guide on today's most popular distance, the 13.1-mile half marathon. *Hal Higdon's Half Marathon Training* is everything you wanted to know about running the half marathon, including where to begin, what to focus on, how to pace yourself, how to avoid injury, how to track your progress, how to stay the course, and how to improve. Whether this is your first or fiftieth half marathon, there is a plan for you. Inside you'll find more than 15 customizable programs, ranging from novice to advanced (you'll even find a walking-only plan), as well as proven strategies, race-day tips, and motivation from half-marathoners around the globe. From day 1 to mile 13.1, Hal will guide, encourage, and pace you to your goal. Other guides might help you complete the half, but only one will introduce you to the joys of running. *Hal Higdon's Half Marathon Training* is a book you'll return to for guidance and inspiration for a lifetime of running.

sub 2 hour half marathon training plan 12 weeks: *Marathon, Revised and Updated 5th Edition*

Hal Higdon, 2020-03-03 Now completely updated and revised--a new edition of the long-running marathon training guide that has helped more than half a million people reach their goals. *Marathon: The Ultimate Training Guide* is among the bestselling running books of all time for many reasons, but above all others is this one: It works. Marathon running has changed in the seven years since the fourth edition--there are more runners than ever before, the popularity of half-marathons has grown immensely, and guidelines for best recovery and diet practices have changed. This revised fifth edition includes a new chapter on ultramarathons, along with material on recovery techniques, several new training programs, and advice on how to win a Boston qualifying race and improve your personal record. At its core remains Hal Higdon's clear and essential information on injury prevention, training, and nutrition. *Marathon* demystifies the marathon experience and allows each runner to achieve peak performance without anguish or pain, taking the guesswork out of marathon training, whether it's for your first or fiftieth. With Higdon's comprehensive approach and tried-and-tested methods, any runner will learn how to optimize their training and achieve their marathon goals.

sub 2 hour half marathon training plan 12 weeks: *Running Times*

, 2006-05 *Running Times* magazine explores training, from the perspective of top athletes, coaches and scientists; rates and profiles elite runners; and provides stories and commentary reflecting the dedicated runner's worldview.

sub 2 hour half marathon training plan 12 weeks: Running Injury Free Allen Leigh,

sub 2 hour half marathon training plan 12 weeks: Be a Better Runner Sally Edwards, Carl Foster, Roy Wallack, 2011-04-01 Written by marathoner and Triathlon Hall of Fame inductee, Sally Edwards, Be A Better Runner addresses every possible concern from posture and form to nutrition, footwear and race strategy. You'll learn how to adapt running mechanics such as stride and pacing to your body type and fitness level while specific training regimens prepare you for any type of running event including sprints, distance runs, and marathons. Co-authored with Carl Foster, the former President of the American College of Sports Medicine, Be A Better Runner Every features the latest research in the science of running. You'll learn the latest strategies to boost your performance, train more effectively, and aid post-workout recovery. The latest research on special concerns such as running after age 40, during pregnancy, overtraining in younger runners and preventing amenorrhoea in female distance runners is also highlighted.

sub 2 hour half marathon training plan 12 weeks: Prevention, 2006-04 Prevention magazine provides smart ways to live well with info and tips from experts on weight loss, fitness, health, nutrition, recipes, anti-aging & diets.

sub 2 hour half marathon training plan 12 weeks: Fast 5K Pete Magill, 2019-09-10 Spend two hours with Pete Magill's Fast 5K and you'll know how to run your fastest 5K. In his fast-paced, ultimate guide to 5K running races, celebrated running coach Pete Magill reveals the 25 crucial keys to setting your next 5K PR. Magill shares hard-earned lessons he gained while leading 19 teams to USA national championships and setting multiple American and world age-group and masters records. Fast 5K shares Magill's essential keys to finding your fastest running fitness and race readiness. The 25 keys include optimal training mileage, effective tempo runs, VO2 max workouts, hill repeats, plyometrics that work, ways to prevent injuries, recovery tips, guides to diet and racing weight, choosing racing flats, and much more. Offering three 12-week and one 16-week 5K training plans, Fast 5K is the key to your best 5K running times. Pete Magill is a world-class 5K runner, personally holds multiple American and world age-group records in track & field and road racing and is a 5-time USA Masters Cross Country Runner of the Year. Now in this distilled guide, you can get world-class advice on how to run your fastest 5K ever.

sub 2 hour half marathon training plan 12 weeks: Faster Road Racing Pete Pfitzinger, Philip Latter, 2014-11-24 Set PRs in the most popular race distances. Renowned running authority, coach, and best-selling author Pete Pfitzinger teams with Philip Latter, senior writer for Running Times, in this must-have training guide for the most popular race distances, including the 5K, 10K, and half marathon. Faster Road Racing: 5K to Half Marathon presents easy-to-follow programs proven to give you an edge in your next race. You'll discover detailed plans for race-specific distances as well as expert advice on balancing training and recovery, cross-training, nutrition, tapering, and training over age 40. And for serious runners who compete in numerous races throughout the year, Pfitzinger's multi-race, multi-distance training plans are invaluable. Faster Road Racing is your all-inclusive resource on running your fastest at distances of 5K, 8K to 10K, 15K to 10 miles, and the half marathon.

sub 2 hour half marathon training plan 12 weeks: The Ultimate Running Blueprint Kim Gomez, 2024-04-23 Unlock Your Ultimate Running Potential: The Definitive Guide to Mastering the Science, Art, and Psychology of Running Discover the secrets to unleashing your full running potential with The Ultimate Running Blueprint:Unlocking the Secrets to Optimal Performance, Endurance, and Speed for Runners of All Levels This groundbreaking book is a must-have for

runners of all levels, from beginners to aspiring ultra marathoners. With cutting-edge insights from the latest research in sports science, psychology, and biomechanics, this comprehensive guide provides you with the tools and knowledge you need to optimize your running performance, prevent injuries, and achieve your goals. In this book, you'll learn: - The evolutionary biology and physiology behind human running - Proven training strategies for improving endurance, speed, and conditioning - The art of self-actualization and how to reach your full potential as a runner - Effective techniques for mastering the mental game of running - Nutritional guidelines for fueling your body for optimal performance - The biomechanics of running and how to improve your form and efficiency Whether you're just starting out or looking to take your running to the next level, The Ultimate Running Blueprint is your ultimate companion on the journey to becoming the best runner you can be. Don't wait another day to start unleashing your true running potential—buy now and take the first step towards transforming your running forever!
