Over the past decade, television has seen an explosion of acclaimed and influential debut storytellers including Issa Rae (Insecure), Donald Glover (Atlanta), and Michaela Coel (I May Destroy You). This golden age of Black television would not be possible without the actors, showrunners, and writers that worked for decades to give voice to the Black experience in America. Written by veteran TV reporter Bethonie Butler, Black TV tells the stories behind the pioneering series that led to this moment, celebrating the laughs, the drama, and the performances we've loved over the last fifty years. Beginning with Julia, the groundbreaking sitcom that made Diahann Carroll the first Black woman to lead a prime-time network series as something other than a servant, she explores the 1960s and 1970s as an era of unprecedented representation,

with shows like *Soul Train*, *Roots*, and *The Jeffersons*. She unpacks the increasingly nuanced comedies of the 1980s from *227* to *A Different World*, and how they paved the way for the '90s Black-sitcom boom that gave us *The Fresh Prince of Bel-Air* and *Living Single*. Butler also looks at the visionary comedians—from Flip Wilson to the Wayans siblings to Dave Chappelle—and connects all these achievements to the latest breakthroughs in television with showrunners like Shonda Rhimes, Ava DuVernay, and Quinta Brunson leading the charge. With dozens of photographs reminding readers of memorable moments and scenes, Butler revisits breakout performances and important guest appearances, delivering some overdue accolades along the way. proud family black history month episode: **Our Gang** Julia Lee, 2015-12-29 It was the age of Jim Crow, riddled with racial violence and unrest. But in the world of *Our Gang*, black and white children happily played and made mischief together. They even had their own black and white version of the KKK, the Cluck Cluck Klams—and the public loved it. The story of race and *Our Gang*, or *The Little Rascals*, is rife with the contradictions and aspirations of the sharply conflicted, changing American society that was its theater. Exposing these connections for the first time, Julia Lee shows us how much this series, from the first silent shorts in 1922 to its television revival in the 1950s, reveals about black and white American culture—on either side of the silver screen. Behind the scenes, we find unconventional men like Hal Roach and his gag writers, whose *Rascals* tapped into powerful American myths about race and childhood. We meet the four black stars of the series—Ernie “Sunshine Sammy” Morrison, Allen “Farina” Hoskins, Matthew “Stymie” Beard, and Billie “Buckwheat” Thomas—the gang within the Gang, whose personal histories Lee pursues through the passing years and shifting political landscape. In their checkered lives, and in the tumultuous life of the series, we discover an unexplored story of America, the messy, multiracial nation that found in *Our Gang* a comic avatar, a slapstick version of democracy itself.

proud family black history month episode: *Family Matters* Michael Sharpe, 2011-12-13 Family history is one of Britain's most popular pastimes. Around six million people in Britain are researching their family trees, and genealogy is one of the top categories for online searches. The opening up of public records, the growth of family history societies and the introduction of computers and the internet have made the subject accessible to everyone. Yet, while there is no shortage of books on how to do family history, few writers have attempted to put the field itself into a historical and social context, and no popular history of the subject has been published in Britain in the last 50 years. That is why Michael Sharpe's new history is so significant. He traces the rise of genealogy from an esoteric interest of gentlemen and scholars to a mainstream hobby enjoyed by millions. He describes in vivid detail the landmark events and the personalities behind them, telling the story of the evolution of family history through the eyes of those involved. His original and highly readable work offers a fresh perspective on an activity that is not just a fast-growing leisure pursuit but also a rapidly expanding business sector and an important field for public policy.
