

48 liberal lies about american history

48 Liberal Lies About American History: Separating Fact from Fiction

48 liberal lies about american history have become a frequent topic in political and educational discussions, often stirring debate about how the past is portrayed in schools, media, and popular culture. Understanding the true narrative of American history is vital, not just for academics but for anyone interested in the fabric of the nation. This article seeks to explore some of these commonly cited "liberal lies," offering clarity on what history actually tells us, debunking myths, and examining the complexities that are sometimes oversimplified or misrepresented.

Understanding the Context Behind Historical Narratives

History, by nature, is complex and multifaceted. The way it is taught or presented often depends on cultural, political, or ideological perspectives. When discussing 48 liberal lies about American history, it's essential to recognize that some interpretations may lean heavily on certain viewpoints, sometimes leading to distortions or omissions.

The Role of Ideology in Shaping Historical Accounts

One of the key reasons myths or "lies" emerge is the ideological lens through which history is viewed. Liberal perspectives may emphasize systemic injustices or focus on marginalized voices, while conservative narratives might prioritize patriotism and traditional achievements. Both approaches risk oversimplifying events or ignoring inconvenient facts. Engaging with history critically is necessary to move beyond these polarized views.

Common Misconceptions Labeled as Liberal Lies

Many of the 48 liberal lies about American history stem from debates over specific historical events or figures. Let's delve into some of the most frequently contested topics.

The Founding Fathers and the Myth of Purity

A prevalent claim is that liberals falsely portray the Founding Fathers as purely oppressive or villainous figures. While it's true that some founders

owned slaves or held beliefs inconsistent with modern values, labeling them solely as tyrants ignores their contributions to establishing democratic principles and the Constitution. Recognizing their flaws alongside their achievements paints a more balanced picture.

The Narrative of American Exceptionalism

Critics often accuse liberal historians of denying American exceptionalism—the idea that the United States has a unique role in promoting liberty and democracy worldwide. However, many liberal scholars acknowledge achievements while also highlighting failures, such as systemic racism or economic inequalities. The so-called "lie" is often a call for a more nuanced understanding rather than outright denial.

Debunking Myths About Slavery and Civil Rights

Slavery and civil rights are among the most sensitive and heavily debated subjects in American history. Some of the 48 liberal lies about American history center on how these topics are presented.

Slavery's Role in Building America

A common accusation is that liberals exaggerate the extent to which slavery contributed to America's economic prosperity. The truth is that slavery was integral to the development of the Southern economy and had ripple effects across the nation. Denying this reality does a disservice to historical accuracy and the experiences of enslaved people.

Progress in Civil Rights

Another claim is that liberals falsely suggest the civil rights movement immediately eradicated racism and discrimination. While significant progress was made, systemic issues persist. Recognizing ongoing challenges reflects a commitment to truth rather than deception.

Reexamining Critical Wars and Conflicts

American wars are often focal points for contested historical narratives. From the Revolutionary War to Vietnam, the interpretation of these conflicts can vary widely.

The Revolutionary War: A Simple Good vs. Evil Tale?

Some narratives simplify the American Revolution as a pure fight for freedom against tyranny. However, the reality included complex motivations such as economic interests, class struggles, and regional loyalties. Accusing liberals of fabricating these nuances ignores the richness of historical scholarship.

Vietnam War and the Anti-War Movement

The portrayal of the Vietnam War as an unprovoked disaster is sometimes labeled a liberal exaggeration. While the war's justification and execution were certainly flawed, understanding the anti-war movement's roots and the impact on American society is crucial. Simplifying this as a "lie" overlooks legitimate critiques.

Misconceptions About Immigration and Native American History

Immigration and Native American history are topics where liberal interpretations often clash with traditional narratives.

Immigration as an Unmitigated Positive

Some argue liberals falsely claim immigration has only benefited America without challenges. While immigration has enriched the nation culturally and economically, it has also posed social and political challenges. Acknowledging both sides leads to a more honest discussion.

Native Americans and the Concept of "Genocide"

The use of the term genocide to describe the treatment of Native Americans is controversial. Critics say liberals exaggerate the term to portray American history negatively. Yet, historical records reveal widespread displacement, violence, and cultural destruction that align with the definition of genocide. This is not a lie but an uncomfortable truth sometimes resisted in mainstream narratives.

Economic History and the American Dream

Economic themes also feature prominently in debates about historical accuracy.

The Myth of the Self-Made Man

Liberal critiques often challenge the idea that anyone can achieve success purely through hard work, highlighting systemic barriers. Some label this a lie, but evidence of social stratification and unequal opportunities supports this view.

The New Deal and Government's Role

The portrayal of the New Deal as an unqualified success or failure is sometimes oversimplified. Liberal narratives may emphasize its role in rescuing the economy, while conservative views downplay government intervention. Both perspectives can mislead if taken as absolute truths.

The Influence of Revisionist History in Education

One of the most significant battlegrounds for the 48 liberal lies about American history is the education system. The content of textbooks, curricula, and classroom discussions shape how generations understand their country's past.

Critical Race Theory and Historical Interpretation

The controversy around critical race theory (CRT) exemplifies tensions over interpreting history. Critics claim CRT promotes a divisive and false portrayal of America. Supporters argue it provides necessary context about race and power. Understanding what CRT actually entails helps dispel misinformation.

Balancing Patriotism and Honest History

Educators face the challenge of teaching a history that honors national achievements while confronting uncomfortable truths. The accusation that liberals use history to shame or undermine patriotism often ignores the goal

of fostering critical thinking and empathy.

Why It Matters to Address These Historical Debates

Engaging with the 48 liberal lies about American history is not about choosing sides but about striving for a truthful and inclusive understanding of the past. History shapes identity, policy, and community, making it crucial to avoid oversimplifications and falsehoods.

By approaching American history with openness and a willingness to explore all facets—heroic and flawed—we can foster a more informed and united society. Whether discussing the legacy of slavery, the complexities of war, or the struggles of marginalized groups, the goal should always be clarity and respect for evidence.

The conversation about history is ongoing, and as new research emerges, so too will our understanding deepen. Recognizing the interplay of perspectives ensures that history remains a living dialogue rather than a static set of "lies" or truths.

Frequently Asked Questions

What is the main claim of the book '48 Liberal Lies About American History'?

The book argues that many commonly taught narratives in American history, particularly those promoted by liberal perspectives, are misleading or false.

Who is the author of '48 Liberal Lies About American History'?

The book is authored by Larry Schweikart, a conservative historian and professor.

Does '48 Liberal Lies About American History' challenge the traditional narrative of the American Revolution?

Yes, the book questions some widely accepted views about the causes and nature of the American Revolution, suggesting that some portrayals are exaggerated or inaccurate.

How does the book address the topic of slavery in American history?

The book critiques what it sees as oversimplifications or distortions about slavery, emphasizing economic and historical complexities often overlooked in liberal accounts.

Is '48 Liberal Lies About American History' considered controversial?

Yes, the book has sparked debate and controversy for its challenge to mainstream historical interpretations and its conservative perspective.

What is one example of a 'liberal lie' the book discusses?

One example is the claim that America was founded as a fundamentally racist nation, which the book disputes by highlighting the founders' varied views and intentions.

Does the book discuss the role of Native Americans in American history?

Yes, it critiques some narratives about Native American treatment and interactions with European settlers, arguing that some stories are exaggerated or misleading.

How does the book portray American economic history?

It challenges the idea that America's economic success is due to exploitation or oppression, instead highlighting innovation, entrepreneurship, and free-market principles.

Is '48 Liberal Lies About American History' used in academic settings?

While it is popular among some conservative circles, it is not widely adopted in mainstream academic curricula due to its partisan approach.

What is the intended purpose of '48 Liberal Lies About American History'?

The book aims to encourage readers to critically examine accepted historical narratives and consider alternative perspectives from a conservative viewpoint.

48 Liberal Lies About American History: An Investigative Review

48 liberal lies about american history have become a recurring theme in contemporary political and educational discourse. These claims, often propagated through textbooks, media narratives, and public institutions, argue that mainstream or traditional interpretations of American history are flawed or intentionally sanitized. This article aims to explore these assertions with a neutral, investigative lens, analyzing the veracity of such statements and their impact on public understanding. By dissecting common examples and contrasting them with historical evidence, we seek to provide a balanced perspective on this contentious issue.

Understanding the Context of 48 Liberal Lies About American History

The phrase "48 liberal lies about American history" is frequently used within certain circles to describe what they perceive as distortions or oversimplifications in the retelling of key historical events. This notion stems from debates over how history is taught in schools, portrayed in media, and commemorated in public memory. The underlying question is: Are these so-called "lies" deliberate fabrications, or do they represent differing interpretations and evolving understandings of complex historical realities?

To address this, it's essential to first understand what constitutes a "lie" in historical discourse. History is inherently interpretive; facts can be presented differently depending on perspective, emphasis, and available evidence. However, when information is outright fabricated or significantly altered to serve an ideological agenda, it crosses from interpretation into misinformation.

Commonly Cited Examples of Alleged Liberal Distortions

Critics who reference the "48 liberal lies" often highlight several recurring themes:

- **The Founding Fathers and Slavery:** The portrayal that the Founding Fathers were unequivocally champions of liberty ignores their complex relationships with slavery.
- **The Causes of the Civil War:** Some narratives downplay slavery's central role, suggesting economic or states' rights issues were primary.

- **Christopher Columbus:** The depiction of Columbus as either a heroic explorer or a genocidal colonizer is often polarized.
- **American Exceptionalism:** The debate over whether America is uniquely virtuous or fundamentally flawed.
- **Representation of Indigenous Peoples:** The extent to which Native American history and culture are acknowledged or marginalized.

These topics represent flashpoints where historical interpretation intersects with modern political values, often leading to accusations of deliberate distortion.

Analyzing the Claims: Fact vs. Interpretation

When investigating "48 liberal lies about American history," it is important to differentiate between factual inaccuracies and legitimate reinterpretations that reflect new scholarship or broader perspectives.

The Founding Fathers and Slavery: Myth or Reality?

A common narrative in conservative circles glorifies the Founding Fathers as paragons of liberty. However, historical records reveal that several of these leaders, including George Washington and Thomas Jefferson, were slave owners. This fact is undisputed among historians. Some argue that liberal narratives overemphasize this aspect to tarnish their legacy unfairly, while others claim that traditional accounts understate the contradictions between the ideals of freedom and the practice of slavery.

In reality, this issue is more nuanced. The Founders' writings and actions reflect the tensions of their time – they laid the groundwork for a nation aspiring to liberty while grappling with entrenched social and economic systems. Highlighting their contradictions is not inherently a "lie" but a more comprehensive view of history.

The Civil War: Was Slavery the Central Cause?

The causes of the American Civil War have been debated extensively. The consensus among most historians is that slavery was the primary catalyst. Yet, some interpretations emphasize economic differences or states' rights to argue for a more multifaceted causation.

Accusations of "liberal lies" often arise when slavery's role is emphasized,

with critics suggesting this portrayal is an attempt to shame the South. Still, the evidence from secession documents, speeches, and contemporary writings supports slavery as the central issue. Thus, presenting slavery as the main cause aligns with historical scholarship rather than distortion.

Christopher Columbus: Hero, Villain, or Both?

Columbus's legacy has been reassessed in recent decades, with some narratives highlighting his role in initiating European colonization and its devastating impact on indigenous populations. Others defend his achievements in exploration and navigation.

Labeling these reassessments as "lies" ignores the complexity of historical interpretation. The evolving understanding of Columbus reflects new archaeological, ethnographic, and documentary research. It is less about deception and more about integrating more perspectives into the historical record.

Educational Implications and Public Perception

The debate over "48 liberal lies about American history" is not only academic but deeply connected to how history is taught and perceived in society.

Textbook Content and Curriculum Debates

Educational materials are often battlegrounds for these conflicting narratives. Some states and school districts have pushed back against curricula that include critical race theory or emphasize systemic racism, labeling such content as liberal propaganda.

While it is legitimate to question how history is presented to ensure accuracy and balance, outright rejection of scholarly consensus risks perpetuating ignorance. Conversely, embracing only one perspective leads to a partial understanding.

The Role of Media and Popular Culture

Media portrayals of American history, from films to documentaries, often simplify complex events for broader audiences. This can contribute to misconceptions or reinforce stereotypes. Both liberal and conservative media outlets may frame history to support their ideological goals.

Therefore, consumers of historical content should approach narratives

critically, recognizing potential biases and seeking diverse sources.

Why the Debate Over 48 Liberal Lies About American History Persists

The persistence of claims about “48 liberal lies” reflects broader cultural and political divides in America. History is not merely about the past; it shapes national identity, values, and policy.

The Influence of Ideology on Historical Interpretation

Both liberal and conservative groups tend to interpret history through ideological lenses, emphasizing facts and narratives that support their worldview. This selective emphasis can lead to accusations of dishonesty and propaganda.

The Challenge of Reconciling Multiple Perspectives

America’s history is complex and multifaceted. Reconciling stories of progress, injustice, conflict, and achievement requires acknowledging uncomfortable truths alongside inspiring ideals. Simplistic dichotomies of truth versus lies do not capture this complexity.

Examining the List of 48 Alleged Lies

While the exact enumeration of “48 liberal lies” varies depending on the source, typical claims include:

1. The United States was founded as a racist nation.
2. Slavery was a minor issue at the nation’s founding.
3. The Civil War was primarily about states’ rights, not slavery.
4. American capitalism is inherently exploitative.
5. Manifest Destiny was purely a policy of oppression.
6. The Constitution is a living document designed to support modern progressive values.

7. Native Americans were passive victims without agency.
8. American exceptionalism is a myth.
9. The U.S. has always been a force for global good.
10. Women's suffrage was universally supported.

Each claim warrants careful scrutiny against historical evidence and scholarship.

Addressing Misconceptions Through Critical Inquiry

Disentangling fact from fiction requires:

- Consulting primary sources such as letters, legal documents, and contemporaneous accounts.
- Engaging with diverse historical interpretations from multiple schools of thought.
- Recognizing the difference between propaganda and legitimate revisionist history.
- Appreciating the complexity and contradictions inherent in historical events.

Only through such critical inquiry can the American public develop a more accurate and nuanced understanding of its past.

Final Reflections on Historical Truth and Narrative

The discourse around "48 liberal lies about American history" highlights the tension between competing narratives that seek to define America's identity. While it is valid to challenge inaccuracies and biases, dismissing entire bodies of scholarship as lies undermines constructive dialogue.

History is an ongoing conversation—a dynamic process of interpretation shaped by new evidence and perspectives. Striving for balanced, evidence-based narratives enriches collective memory and informs a more inclusive national

story.

48 Liberal Lies About American History

48 liberal lies about american history: 48 Liberal Lies About American History Larry Schweikart, 2008-09-04 A historian debunks four-dozen PC myths about our nation's past. Over the last forty years, history textbooks have become more and more politically correct and distorted about our country's past, argues professor Larry Schweikart. The result, he says, is that students graduate from high school and even college with twisted beliefs about economics, foreign policy, war, religion, race relations, and many other subjects. As he did in his popular *A Patriot's History of the United States*, Professor Schweikart corrects liberal bias by rediscovering facts that were once widely known. He challenges distorted books by name and debunks forty-eight common myths. A sample: • The founders wanted to create a wall of separation between church and state • Lincoln issued the Emancipation Proclamation only because he needed black soldiers • Truman ordered the bombing of Hiroshima to intimidate the Soviets with atomic diplomacy • Mikhail Gorbachev, not Ronald Reagan, was responsible for ending the Cold War America's past, though not perfect, is far more admirable than you were probably taught.

48 liberal lies about american history: Devotional Journal Living Stephen Kyeyune, 2015-05-08 Each person is an enigma. You're a puzzle not only to yourself but also to everyone else, and the great mystery of our time is how we penetrate this puzzle. We are social animals, and unless we engage God, we can never resolve and understand the truth that lies at the bottom of an enigma of interdependence relationship. A legendary poet wrote, People are fascinating. They're so unique and I think what's more fascinating is the reason behind the physical characteristic, the enigma, that's where the gold dust is. Life is never a mystery and a harmful enigma unless we try to interpret it from our human brand or perspective as though it had no underlying truth. The reality is that every person believes in something (be it true or false). Our beliefs modify our behavior. I have put together this journal for you with epic passion projecting the phenomenal person that God intended you to be. Wrong perception of life issues makes man a wrong person. It is my prayer that by reading this book you will be enlightened and inspired to solve the puzzle of life from the perspective of the Creator of life. Certainly, the most important thing that God can give to us is the truth about life. God created us to live passionately but not passively. That is why he instructed us to love him with all our hearts and to love our neighbors as we love our selves.

48 liberal lies about american history: The Assault on America Alex McFarland, 2020-09-15 AMERICA IS ON THE BRINK OF COLLAPSE. WHAT WILL YOU DO TO SAVE YOUR COUNTRY? America has suffered some big losses—eroding morals, a Godless culture, and a declining national spirit. These losses have corrupted the very fabric of our once-stalwart nation, coalescing into social and political overthrow with anarchy raging in the streets...

48 liberal lies about american history: Financial Disclosure Reports of Members of the U.S. House of Representatives for the Period Between January 1, 2009 and December 31, 2009 United States. Congress House, 2010

48 liberal lies about american history: Financial Disclosure Reports of Members of the U.S. House of Representatives, Volume 3 of 3, January 1, 2009 and December 31, 2009, 111-2 House Document 111-128, 2010

48 liberal lies about american history: The First Thanksgiving Robert Tracy McKenzie, 2013-05-20 Veteran historian Robert Tracy McKenzie sets aside centuries of legend and political stylization to present the mixed blessing that was the first Thanksgiving. Like good narrative history, McKenzie's critical account of our Pilgrim ancestors confronts us with our own unresolved issues of national and spiritual identity.

48 liberal lies about american history: God's Heart for Israel (and Us) John Weldon, 2011-07-12 We read God's promises to Israel in the Old Testament where it is referred to as "the apple of His eye but is God done with Israel since they rejected their Messiah? Are we as Christians supposed to stand for the nation of Israel today? Has the Church now replaced Israel so that God's promises and covenants given in the OT no longer apply to Israel? What is Israel's global importance? Is global anti-Semitism on the rise? What will be Israel's ultimate future? According to an article in the Jerusalem Post of June 17 2011 Israel is at a do-or-die moment. As was the case in May 1967 when the combined Arab armies gathered with the express purpose of wiping the Jewish state off the map - today again Israel is alone in its hour of greatest peril. John Weldon is able to answer these questions and address the important issues of our day because of the extensive research he has done on Middle East and America. He shares what he has learned in this deeply thought-provoking book.

48 liberal lies about american history: The Great Money Binge George Melloan, 2009-11-17 According to George Melloan, the erosion of supply-side economic principles began shortly after Ronald Reagan left office, when his successor, George H.W. Bush, caved in to pressures from Congress and reneged on his campaign promise to not raise taxes. Bush, who once called supply-side "voodoo economics," seemed to forget that during his eight years as Reagan's Vice President that Reaganomics was transforming America into a dynamic entrepreneurial society. The prosperous 1990s saw a gradual return of Keynesian ideas and policies that were the catalyst for the credit bubble and the current economic downturn. The genuine prosperity of the preceding two decades slowly morphed into a false sense of wealth, brought about by excessive dependence on credit by both the public and private sector. When the credit bubble burst, the economy collapsed. In short, policy makers dismissed sound classical economics and instead relied on the false promise of Keynesianism, the theory that the government itself can generate prosperity through easy credit and heavy government spending. Offering enlightening answers in an uncertain time, The Great Money Binge not only traces the failures of Keynesian policies and past administrations, but outlines a clear, authoritative solution: a return to supply-side economics and a rejection of the trendy but ultimately disastrous stimulus packages, which only lead to a new era of inflation and global depression.

48 liberal lies about american history: What Would the Founders Say? Larry Schweikart, 2011-03-08 The #1 New York Times bestselling coauthor of A Patriot's History of the United States examines ten current challenges. America is at a crossroads. We face two options: continue our descent toward big government, higher taxes, less individual liberty, and more debt or pull our country back on the path our Founding Fathers planned for us. But that path isn't always so easy to see. Following the success of his previous books, conservative historian Larry Schweikart tackles some of the key issues confronting our nation today: education, government bailouts, gun control, health care, the environment, and more. For each he asks, What would the founders say? and sets out to explore our history and offer wisdom to help us get back on track. What would really be compatible with the vision that Washington, Jefferson, Madison, and the other founders had for America? Written in Schweikart's informal yet informative style, What Would the Founders Say? is sure to delight his fans and anyone looking for a little clarity on tough issues.

48 liberal lies about american history: Politics, Economics and Investments Donald M. Kinzer, 2014-06-02 Don believed the economic and financial markets have missed the key event holding back world growth: globalization. Globalization unleashed over one billion consumers and workers with the fall of the Berlin wall in 1990. The subsequent decline in communism was an historical economic event which had both positive and negative elements. The most negative element for the developed world was the limits on growth which are thus limiting employment. As the developed world has tried to maintain its lifestyle, even with the slower growth, it has resorted to more and more debt. Many advanced countries are now approaching historically dangerous debt levels. The resolution of this struggle between developed and developing countries will prove whether globalization has been a positive or negative force.

48 liberal lies about american history: Culture Jihad Todd Starnes, 2019-09-10 The Left is bulldozing through American history. We the People are the only ones who can stop them. America is on the verge of another Civil War. Socialism is on the rise. Free Speech is under assault. People of Faith are facing persecution. Gun owners are in the crosshairs. Our public schools have been turned into indoctrination centers. A leftist mob made up of socialist politicians, academic elites, raging feminists, and effete Pajama Boys has partnered with Antifa, illegal aliens, and other radical groups to finish what President Obama started—a fundamental transformation of our nation. Can America be saved? Political columnist, commentator, author, and radio host Todd Starnes addresses this issue and more in Culture Jihad. He believes that if good-hearted patriots rise up together we can stop the jihad. It is possible to keep America great.

48 liberal lies about american history: 48 Liberal Lies about American History Larry Schweikart, 2008

48 liberal lies about american history: Halsey's Bluff Schweikert Larry, 2016-02-10 An alternative history of the battle of Midway. Admiral Halsey uses all his guile to protect the American fleet and turn the tide in the Pacific

48 liberal lies about american history: It's about God and the Amer-Ican People Joe S. Amer-Ican, 2010-03 There is no end To The amount of criticism and satire that circulates every day regarding our current political system. Many Americans easily recognize that this nation is not at all what it used to be. But how many are led To The voting booths to cast a vote for candidates that they didn't choose and don't seem that different? How many people simply accept as fact that America must have a two-party political system? With a call to organized, peaceful action, It's About God sets forth the principles and ideas that Americans need to find their way back to full freedom. He courageously stands up against the stilted media's grand portrayal of our two parties as fighting, when they actually benefit from playing off of each other. Pointing citizens back to their original principles, It's About God explicitly defends the American right to believe in any religion Americans want, but still argues that anyone can see the moral stature of the nation's roots. As an avid patriot, Joe S. Amer-Ican calls vigorously for a return to true American values. In his no-nonsense approach and style, he seals the case against anti-American politicians and systems that are designed to control our minds, end our democracy, and abolish our freedom. He offers real solutions and insight, first with a call to God, and then with actions that can set the foundations for freeing our nation from the bondage of greed. 'Greg's book is a must read. it is not often, As a publisher, I offer this kind of support for an individual book. However, In this instance, I find that this book should be in every library.' - Dr. Richard Tate, Tate Publishing Founder & Author Acquisitions Manager Greg Litchfield (aka Joe S. Amer-Ican) held a career as a small-town bureaucrat working within the system that he now condemns. After attending Indiana University at Fort Wayne, he went on to a career in politics. He and his wife have three daughters and six grandchildren. The Amer-Ican Pledge Party supports www.go0oh.com.

48 liberal lies about american history: *Seven Events That Made America America* Larry Schweikart, 2010-06-01 A conservative historian examines some of the pivotal, yet often ignored, moments that shaped our history All students of American history know the big events that dramatically shaped our country. The Civil War, Pearl Harbor, the assassination of John F. Kennedy, and 9/11 are just a few. But there are other, less famous events that had an equally profound impact. Notable conservative historian Larry Schweikart takes an in- depth look at seven of these transformative moments and provides an analysis of how each of them spurred a trend that either confirmed or departed from the vision our Founding Fathers had for America. For instance, he shows how Martin Van Buren's creation of a national political party made it possible for Obama to get elected almost two centuries later and how Dwight Eisenhower's heart attack led to a war on red meat, during which the government took control over Americans' diets. In his easy-to-read yet informative style, Schweikart will not only educate but also surprise readers into reevaluating our history.

48 liberal lies about american history: Responding to the Right Nathan J. Robinson,

2023-02-14 The editor of Current Affairs artfully and efficiently debunks a series of common right-wing arguments. Are taxes theft? Is abortion murder? Does regulation destroy jobs? Is white privilege a lie? Conservative talking points are everywhere, and through well-funded media like Fox News, Breitbart, and YouTube's Prager University, the right has an impressive record of packaging its views for a general audience. Clearly, the left needs to do a better job of fighting back. Luckily, Current Affairs editor Nathan J. Robinson has developed a reputation as a meticulous slayer of irrational and bigoted arguments. He has tangled with the likes of Ben Shapiro, Jordan Peterson, and Charles Murray, exposing their flimsy logic and distorted facts with forensic thoroughness and savage wit. In *Responding to the Right*, Robinson blasts right-wing nonsense with devastating intellectual weaponry, revealing how everyone from Ann Coulter to the National Review uses fear and lies to manipulate the public. He gives a detailed explanation of how conservative arguments work and why we need to resist them, then goes through twenty-five separate talking points, showing precisely why each one fails. This essential handbook is a stimulating source of issues to debate and a comprehensive challenge to dozens of dominant orthodoxies. It sets a new standard for leftist critique, and would be an invaluable addition to the arsenals of the millions of progressives fighting the political battles of our age.

48 liberal lies about american history: Sick Schools David V. Anderson, 2020-01-10 Who's afraid of for-profit education? Those who work in non-profit or government owned and operated schools. Many parents and other stakeholders have been made fearful by this education establishment. What's more important to humans: nutrition or education? Nutrition is more important because it is the prerequisite for other human activities, including education. What organizations provide food and who pays for the food? Food is provided by for-profit farmers, for-profit processors, for-profit wholesalers, and for-profit retailers. Most food is purchased with the consumers' own money, but a significant amount is purchased by low-income individuals using food stamps. Why can't education be provided similarly using education stamps? We trust for-profit enterprises to provide our food. Why can't we trust for-profit enterprises to provide K-12 education? Fearmongers have frightened us and made us into gullible compliant socialists who despise commercial activities in education. Go to the supermarket and ponder its marvelous array of foods and then contemplate how a for-profit K-12 education sector would please and amaze its customers.

48 liberal lies about american history: Dragonslayers Larry Schweikart, 2022-03-15 Donald Trump promised to "Drain the Swamp," by which he originally meant lobbyists. When he got in, he found an entirely different Swamp—a Deep State that had grown, layer upon layer, within the government. But he wasn't the first to encounter entrenched Swamp opposition. Abraham Lincoln had to battle the "Slave Power Conspiracy"; Grover Cleveland was the most successful of three presidents to fight the spoils Swamp. Theodore Roosevelt found a new iteration of the Swamp awaiting him: Trusts. After World War II, John F. Kennedy discovered that he had little control over the Central Intelligence Agency, and even found he needed the CIA for his own purposes. Despite promising to shrink the bureaucracy Swamp, Ronald Reagan found himself helpless to even make a dent in it. And Trump soon learned that the Deep State could ensure no one ever brought any of its own to justice. *Dragonslayers* explains why these Swamps exist, and why they were—and remain—so hard to defeat.

48 liberal lies about american history: The Founders' Revolution Michael S. Law, 2018-01-02 A historian's "revealing and much-needed retelling of the writing of the Declaration of Independence and the events that led up to it" (William D. Watkins, author of *The New Absolutes*). Tying American history to our current political climate, *The Founders' Revolution* is designed to help readers understand the principles embedded in the Declaration of Independence. The book unpacks the intent of the Founding Fathers in drafting the document, and the historical circumstances surrounding its development. Every charge and every paragraph of the Declaration of Independence is discussed with supporting evidence coming from the original words of the Founding Fathers and other original source documents. *The Founders' Revolution* also makes astute comparisons between actions taken by America's current federal government and those taken by the King of England at

the time of the Declaration, showing how our founding document and its principles are still applicable today. In this revealing history, readers will rediscover the forgotten treasures of the Declaration of Independence, recognizing the dedication of the Founding Fathers to the principles written down.

48 liberal lies about american history: *The Memory Hole* Fritz Fischer, 2013-12-01 The U.S. history curriculum is under attack. Politicians, political analysts, and ideologues seek to wipe clean the slate of the American past and replace it with one of their own invention. The basis for this new narrative comes from political beliefs of the present, rather than any systematic examination of the past. These anti-historians campaign to insert their version of American history into the nation's classrooms, hoping to begin a process that will forever transform our understanding of America's past. The Memory Hole examines five central topics in the US history curriculum, showing how anti-historians of both the left and right seek to distort these topics and insert a refashioned story in America's classrooms. Ignoring facts, refashioning other facts and pretending that there are no rules in the telling of history, these re-interpreters of the past place the minds of America's young people in danger. The beleaguered hero of this book is the discipline of History, and The Memory Hole shows how the history curriculum should adhere to history's habits of mind that require complex, sophisticated and subtle thinking about the past. History and social studies teachers, students of history and all those who care about the deep and enduring value of history will value this book and its conclusions.
