jason black the business: The Treasure of Valcour Island Wayne E. Beyea, 2011-02 It was difficult to hide a body thirty feet long, two to four feet thick, and weighing nearly six thousand pounds, but he knew every inch of the half-mile long, pitch-black cavern... He stretched his massive, dark body against the cool stone wall and tried to blend into the dissipating darkness near the far end of the cavern. The Treasure of Valcour Island is a unique blending of science, history, science fiction, terrorism, and murder into a crime fiction recipe so exciting that readers will want to consume it in one sitting. Detective Tom Weston is disturbed to find his friend's truck abandoned in a park late one night. This one discovery launches Tom on an investigation of prehistoric proportions. With his nephew in a coma and more bodies turning up every day, Detective Tom Weston has too many questions without answers. The key to cracking the case lay with The Treasure of Valcour Island. 'With The Treasure of Valcour Island, author Beyea has produced a nail-biter murder mystery with a plot so powerful it is destined to become a movie.' -John H. Briant, Author of the Adirondack Detective series.

jason black the business: Every Day We Live Is the Future Douglas Haynes, 2017-10-11 When she was only nine, Dayani Baldelomar left her Nicaraguan village with nothing more than a change of clothes. She was among tens of thousands of rural migrants to Managua in the 1980s and 1990s. After years of homelessness, Dayani landed in a shantytown called The Widows, squeezed between a drainage ditch and putrid Lake Managua. Her neighbor, Yadira Castellón, also migrated from the mountains. Driven by hope for a better future for their children, Dayani, Yadira, and their husbands invent jobs in Managua's spreading markets and dumps, joining the planet's burgeoning informal economy. But a swelling tide of family crises and environmental calamities threaten to break their toehold in the city. Dayani's and Yadira's struggles reveal one of the world's biggest challenges: by 2050, almost one-third of all people will likely live in slums without basic services, vulnerable to disasters caused by the convergence of climate change and breakneck urbanization. To tell their stories, Douglas Haynes followed Dayani's and Yadira's families for five years, learning firsthand how their lives in the city are a tightrope walk between new opportunities and chronic insecurity. Every Day We Live Is the Future is a gripping, unforgettable account of two women's herculean efforts to persevere and educate their children. It sounds a powerful call for understanding the growing risks to new urbanites, how to help them prosper, and why their lives matter for us all.

jason black the business: *Housekeeping by Design* David Brody, 2016-10-17 One of the great pleasures of staying in a hotel is spending time in a spotless, neat, and organized space that you don't have to clean. That doesn't, however, mean the work disappears—when we're not looking, someone else is doing it. With *Housekeeping by Design*, David Brody introduces us to those people—the housekeepers whose labor keeps the rooms clean and the guests happy. Through unprecedented access to staff at several hotels, Brody shows us just how much work goes on behind the scenes—and how much management goes out of its way to make sure that labor stays hidden. We see the incredible amount of hard physical work that is involved in cleaning and preparing a room, how spaces, furniture, and other objects are designed to facilitate a smooth flow of hidden labor, and, crucially, how that design could be improved for workers and management alike if front-line staff were involved in the design process. After reading this fascinating exposé of the ways hotels work—or don't for housekeepers—one thing is certain: checking in will never be the same again.

jason black the business: *Viatical* Blair Fernau, 2005-04 The insurance industry borrowed the Latin word, *viaticum* -- meaning provisions for a journey -- and created financial products called *Viatical* settlements, allowing the terminally ill to sell their life insurance. Investors who bought these policies realized a great return while helping the sick gain money for their final days. But the returns were not guaranteed -- if the dying lived longer than expected investors lost money. *Viaticals* bet how long someone lives. The faster they die, the better the rate of return. When millions are at stake, it's a prescription for murder. The protagonist of *Viatical* is a young doctor managing an experimental drug program promising to extend the lives of dying AIDS patients. When a terminal but stable patient with a large life insurance policy dies inexplicably and suddenly, everyone involved in the patient's life is suspect. Was it a mercy killing or murder for money? A beautiful *viatical* broker befriends the doctor. Seduced and charmed, the doctor ignores conflicts of interest and finds himself in a precarious position when he discovers the beautiful woman's links to wealthy, mob-connected investors. As he sorts out where true allegiances lie, the doctor's dangerous search for answers reveals more about himself than he knew as the suspenseful end of *Viatical* unfolds in the streets of Washington, DC.

jason black the business: The Routledge Companion to the Makers of Global Business Teresa da Silva Lopes, Christina Lubinski, Heidi J.S. Tworek, 2019-07-09 The Routledge Companion to the Makers of Global Business draws together a wide array of state-of-the-art research on multinational enterprises. The volume aims to deepen our historical understanding of how firms and entrepreneurs contributed to transformative processes of globalization. This book explores how global business facilitated the mechanisms of cross-border interactions that affected individuals, organizations, industries, national economies and international relations. The 37 chapters span the Middle Ages to the present day, analyzing the emergence of institutions and actors alongside key contextual factors for global business development. Contributors examine business as a central actor in globalization, covering myriad entrepreneurs, organizational forms and key industrial sectors. Taking a historical view, the chapters highlight the intertwined and evolving nature of economic, political, social, technological and environmental patterns and relationships. They explore dynamic change as well as lasting continuities, both of which often only become visible – and can only be fully understood – when analyzed in the long run. With dedicated chapters on challenges such as political risk, sustainability and economic growth, this prestigious collection provides a one-stop shop for a key business discipline. jason black the business: *All Together Different* J. Brian Tucker, John Koessler, 2018-02-06 Can we all just get along? E Pluribus Unum: “Out of many, one.” This motto is emblazoned on the Great Seal of the United States, but it could be the church’s model, too. Unfortunately, the daily experience of many Christians and churches feels like the opposite: out of one, many. We are increasingly aware of what makes us different from others, and it is hurting the church and its witness. All Together Different will help readers understand why we find it so difficult “to just get along.” Drawing from research on personal and group identity, it equips readers to navigate a culture that often pays lip service to the value of diversity, but struggles to foster constructive dialogue and mutual respect. With clear writing and real-life stories, All Together Different translates social identity theory for pastors, church leaders, and ministry practitioners, exposing it to the light of biblical and theological reflection.
