

general jack keane political party

General Jack Keane Political Party: Exploring the Intersection of Military Leadership and Politics

general jack keane political party is a phrase that has sparked curiosity among many observers of American politics and military affairs. General Jack Keane, a retired four-star U.S. Army general, is a prominent figure known for his extensive military career and his influence on national security policy. While he is not officially affiliated with any political party as a candidate or officeholder, his viewpoints, advocacy, and occasional political commentary have led to discussions about his role in the political landscape, especially concerning Republican circles and conservative policy debates.

Understanding General Jack Keane's connection, or perceived connection, to political parties requires a closer examination of his career, post-military activities, and public positions on key national and international issues.

Who Is General Jack Keane?

Before diving into the topic of General Jack Keane political party affiliations, it helps to understand who he is. Born in 1943, Jack Keane served in the U.S. Army for over 37 years, culminating as the Vice Chief of Staff of the Army. His military career spans pivotal conflicts such as the Vietnam War and the Iraq War, where he played a crucial role in advising and shaping military strategies.

After retiring from active duty, General Keane transitioned into roles as a defense analyst, commentator, and advisor to various government officials. His expertise in military strategy and national security has made him a frequent voice in political discussions, especially those related to defense policy.

General Jack Keane Political Party Associations: Fact vs. Perception

Military Leadership and Political Neutrality

As a career military officer, General Keane's official stance during his service was one of political neutrality. The U.S. military emphasizes apolitical professionalism, requiring officers and enlisted personnel to refrain from partisan political activities. Keane strictly adhered to this during his active years, focusing on defense and strategy rather than

political advocacy.

Post-Retirement Political Engagement

After retirement, however, the lines between military service and political involvement can sometimes blur. General Keane has been known to publicly support policies and political figures aligned more closely with the Republican Party, particularly on issues of national security, military strength, and foreign policy. For instance, he was an outspoken advocate of the troop surge strategy in Iraq during the George W. Bush administration, a move that received both praise and criticism along partisan lines.

Keane has also provided advisory support to Republican administrations, including serving as an informal advisor to President Donald Trump on military and security matters. Such associations contribute to the public perception that General Jack Keane aligns with the Republican Party's ideology, even if he has never officially declared a party affiliation or run for political office.

The Influence of General Jack Keane in Political Circles

General Jack Keane's impact on political discussions is significant, particularly in defense and security policy. His insights often appear in media outlets, think tank panels, and policy forums where military expertise intersects with political decision-making.

Policy Advocacy and Think Tanks

Keane has been associated with several influential think tanks, including the Institute for the Study of War, where he serves as chairman. Through these platforms, he advocates for policies that emphasize strong military readiness, counterterrorism, and proactive defense strategies. His opinions often resonate with conservative policymakers who prioritize defense spending and assertive foreign policy.

Media Presence and Political Commentary

General Keane frequently appears on news networks and in political debates, providing commentary that shapes public opinion on national security. His ability to translate complex military issues into accessible language makes him a sought-after expert. This visibility also amplifies his perceived

alignment with political parties, especially when his views support certain administrations or political agendas.

Understanding the Broader Context: Military Leaders in Politics

The case of General Jack Keane exemplifies a broader trend of retired military leaders influencing political discourse without formally entering the political arena. Their expertise provides valuable perspectives but can also lead to assumptions about their partisan leanings.

Why Military Figures Engage in Political Discussions

Retired generals like Keane often feel compelled to share their knowledge to inform policy decisions, especially on matters of war, peace, and national security. Their experience lends credibility and urgency to debates that impact the country's safety.

Challenges of Navigating Partisan Perceptions

While retired military officials must maintain personal political rights, their public statements are scrutinized for partisanship. General Jack Keane's case highlights how military reputation can become intertwined with political identities, even without explicit party membership.

General Jack Keane Political Party: What It Means for Voters and Citizens

For those curious about general Jack Keane political party ties, it's important to recognize the distinction between military service, political beliefs, and formal political participation. Keane embodies the role of a military expert who influences politics through counsel and commentary rather than through elected office or official party affiliation.

Insights for Political Observers

- Understanding Keane's perspectives can provide a window into the defense priorities of certain political factions, especially conservatives.
- His career demonstrates how military expertise informs policy debates beyond partisan boundaries.

- Observers should be cautious about equating military endorsement or advice with party loyalty.

Why This Matters in Today's Political Climate

In an era where security concerns remain paramount, voices like General Keane's shape public dialogue and government strategy. Knowing how his military background intersects with political influence helps voters and citizens critically evaluate the sources behind policy recommendations.

Looking Ahead: The Role of Military Leaders in Future Political Landscapes

General Jack Keane's example underscores a continuing dynamic where retired military officials contribute to shaping the nation's political and security environment. As global challenges evolve, the interplay between military experience and political decision-making will likely intensify, raising questions about the appropriate role of such figures in partisan politics.

In sum, while the phrase general jack keane political party often arises in discussions, it serves as a starting point to explore how one of America's most respected military leaders engages with political ideas and debates. His career and post-retirement activities reveal a nuanced relationship with politics—one grounded more in policy influence and advisory roles than formal party membership or electoral ambitions.

Frequently Asked Questions

What political party is General Jack Keane affiliated with?

General Jack Keane is affiliated with the Republican Party.

Has General Jack Keane ever held an elected political office?

No, General Jack Keane has not held an elected political office; he is primarily known for his military and advisory roles.

What role has General Jack Keane played in

Republican politics?

General Jack Keane has been a prominent military advisor and commentator, often supporting Republican policies on defense and national security.

Did General Jack Keane run for any political position under the Republican Party?

As of now, General Jack Keane has not run for any political office under the Republican Party.

How has General Jack Keane influenced Republican Party defense policies?

General Jack Keane has influenced Republican defense policies through his military expertise and advisory roles, helping shape strategies on national security and military operations.

Is General Jack Keane involved in any political organizations or think tanks?

Yes, General Jack Keane is involved with various think tanks and policy organizations that align with Republican views on defense and foreign policy.

What is General Jack Keane's stance on current Republican Party leadership?

General Jack Keane generally supports the Republican Party leadership, especially on issues related to military strength and national security.

Has General Jack Keane publicly endorsed any Republican candidates?

Yes, General Jack Keane has publicly endorsed Republican candidates in various elections, reflecting his alignment with the party's values.

Additional Resources

General Jack Keane Political Party: An Examination of the Former General's Political Involvement

general jack keane political party represents a subject of growing interest and speculation in American political discourse. General Jack Keane, a retired four-star general of the United States Army, has been a prominent figure in military and strategic affairs for decades. Recently, discussions around his political affiliations and potential involvement with political

parties have raised questions about the trajectory of his post-military career. This article explores General Keane's relationship with political parties, his ideological leanings, and the broader implications of a military leader transitioning into the political arena.

Background: Who is General Jack Keane?

Before delving into the specifics of any political party association, it is important to understand who General Jack Keane is. Born in 1943, Keane served in the U.S. Army for over 40 years, culminating in his position as Vice Chief of Staff of the Army. His military career is marked by pivotal roles, including significant contributions to the Iraq War strategy and counterinsurgency operations. Since retiring, Keane has been a vocal commentator on national security, military strategy, and foreign policy, frequently appearing in media and advising political leaders.

His military background and expertise have naturally positioned him as a respected voice in defense and security circles, but the question of his political party affiliation remains nuanced and multi-faceted.

General Jack Keane Political Party: Clarifying the Association

Unlike many retired generals who maintain a nonpartisan stance, General Jack Keane's public statements and advisory roles have often aligned with conservative viewpoints. However, it is critical to note that Keane has not officially declared membership in any political party or run for elected office under a party's banner.

Alignment with Conservative Ideals

General Keane's positions on defense spending, military readiness, and foreign policy often resonate with the Republican Party's platform. For instance, his advocacy for a robust military presence abroad and a firm stance against adversaries such as Iran and China aligns with mainstream conservative policies. Furthermore, Keane's frequent appearances on conservative news outlets and his advisory role in Republican administrations have reinforced this perception.

Advisory Roles in Republican Administrations

During the George W. Bush administration and later under President Donald

Trump, Keane served as an informal advisor on matters of defense and national security. His input on troop deployments, counterterrorism strategies, and military modernization was influential, suggesting a strong ideological affinity with Republican leadership. While advisory roles do not equate to formal party membership, they do provide insight into his political leanings.

Nonpartisan Military Ethos vs. Political Involvement

It is essential to balance the understanding of Keane's military ethos, which traditionally values nonpartisanship, against his post-retirement political engagement. The U.S. military emphasizes political neutrality to preserve its integrity and public trust. Yet, retired generals often leverage their expertise in political advisory capacities, which can blur the lines between professional military service and partisan politics.

Implications of a Military Figure Engaging in Politics

The involvement of retired military leaders like General Jack Keane in politics raises important questions about civil-military relations and democratic norms.

The Pros of Military Experience in Politics

- **Expertise in National Security:** Military leaders bring invaluable experience to the political decision-making process, especially regarding defense and foreign policy.
- **Leadership Skills:** Generals like Keane have managed large organizations and complex operations, skills that can translate effectively into political leadership.
- **Nontraditional Perspectives:** Their backgrounds often provide a pragmatic, mission-focused approach to governance.

The Cons and Potential Risks

- **Partisan Polarization:** Military figures publicly aligning with political parties risk eroding the perceived nonpartisan nature of the armed

forces.

- **Civil-Military Boundary Concerns:** A blurred line between military and political spheres can challenge democratic civilian control over the military.
- **Public Perception:** The public may question the impartiality of military leaders who engage overtly in political discourse or party activities.

Comparative Analysis: General Jack Keane and Other Military Figures in Politics

General Keane's political engagement can be compared with other military leaders who have transitioned into politics, such as General Dwight D. Eisenhower, General Wesley Clark, and General David Petraeus.

General Dwight D. Eisenhower

Perhaps the most notable example, Eisenhower successfully transitioned from Supreme Allied Commander during World War II to a two-term U.S. president under the Republican Party. His political career was marked by a clear party affiliation and electoral success, which differs from Keane's more advisory and non-electoral role.

General Wesley Clark

Clark, a retired four-star general, pursued a more active political role by running for the Democratic presidential nomination in 2004. Unlike Keane, Clark explicitly engaged in partisan politics as a candidate, aligning with a different party than Keane's perceived conservative leanings.

General David Petraeus

Petraeus, another prominent military figure, has largely remained out of formal party politics but has served as a consultant and advisor across administrations. His involvement is similar to Keane's in terms of influence without direct party membership or candidacy.

Media and Public Perception of General Jack Keane Political Party Links

Media outlets frequently associate General Jack Keane with the Republican Party due to his vocal support for conservative defense policies and his advisory roles in Republican administrations. However, investigative coverage reveals no formal political party registration or candidacy on his part.

Public perception tends to view Keane as a strong supporter of conservative principles, especially in matters of national security, yet respects his status as a retired military official who maintains a professional stance. This nuanced public image reflects the complex nature of military-political intersections in the United States.

Social Media and Public Discourse

On social media platforms and political forums, discussions around the "general jack keane political party" often speculate about his potential future political ambitions or formal party affiliation. These conversations highlight the broader trend of retired military officials becoming influential voices in partisan debates, even without official party ties.

The Strategic Role of General Jack Keane in Shaping Political Defense Agendas

Beyond party affiliations, General Keane's impact is most evident in shaping defense and security agendas. His recommendations on military modernization, cybersecurity, and counterterrorism have influenced both Republican and, at times, bipartisan policy considerations.

Key Policy Positions

- **Military Readiness:** Advocates increased defense budgets to maintain the U.S. military's global dominance.
- **Counterterrorism Efforts:** Supports aggressive strategies to combat terrorism and insurgencies worldwide.
- **Cybersecurity:** Highlights the growing importance of cyber warfare and the need for robust defenses.
- **Foreign Policy:** Endorses strong alliances and a proactive stance against

geopolitical rivals.

These positions align broadly with conservative policy frameworks but also reflect practical considerations of national security rather than strict partisan ideology.

Looking Ahead: The Future of General Jack Keane Political Party Dynamics

While General Jack Keane has not formally entered partisan politics, his influence within conservative circles and defense-related policy debates continues to grow. Whether this influence will translate into official political party membership or electoral ambitions remains uncertain.

As the political landscape evolves, retired military leaders like Keane are likely to play increasingly prominent roles as advisors, commentators, or even candidates. Their unique perspectives offer valuable insights but also require careful navigation of civil-military boundaries.

In sum, the phrase “general jack keane political party” encapsulates a complex interplay between military expertise, political ideology, and public engagement. Understanding this dynamic is essential for appreciating the evolving role of military veterans in American political life.

general jack keane political party: The Administration of Joe Biden - Obama and Democrat Policies Implemented Gayle Strickland, 2024-03-10 This book is about what really happened during the Biden Administration. Joe Biden implemented progressive policies at home that resulted in high inflation, open borders and historic numbers of illegal immigrants, a weak economy and a dramatic expansion of government. Abroad, Biden's policies of appeasement and weakness resulted in war in Ukraine and the Middle East, an upsurge in terrorism, and increased aggression from Iran, Russia and China. This book shows the extent to which President Biden mimicked and adopted the policies of former President Barack Obama. It was no surprise that the Biden administration resembled the Obama administration as Biden brought in a number of people who played key roles in the Obama administration. Biden got similar but more destructive results as progressives held Biden hostage to their ideals and policies. As Biden ran for a second term, Biden's fitness for office as well as the results of his policies at home and abroad were critical to the decisions to be made by the American public in the 2024 Presidential election. This book gives the information required to make that choice.

general jack keane political party: Public Statements of Robert M. Gates, Secretary of Defense, 2006-2007 Robert Michael Gates, 2007

general jack keane political party: The Troublemaker Mark L. Clifford, 2024-12-03 The astonishing story of the billionaire businessman Jimmy Lai who became one of Hong Kong's leading

activists for democracy and is today China's most famous political prisoner. Jimmy Lai escaped mainland China when he was twelve years old, at the height of a famine that killed tens of millions. In Hong Kong, he hustled; no work was beneath him, and he often slept on a table in a clothing factory where he did odd jobs. At twenty-one, he was running a factory. By his mid-twenties, he owned one and was supplying sweaters and shirts to some of the biggest brands in the United States, from Polo to The Limited. His ideas about retail led him to create Giordano in 1981, and with it "fast fashion." A restless entrepreneur, as Giordano prepared to go public, he was thinking about a dining concept that would disrupt Hong Kong's fast-food industry. But then came the Tiananmen Square democracy protest and the massacre of 1989. His reaction to the violence was to enter the media business to push China toward more freedoms. He started a magazine, *Next*, to advocate for democracy in Hong Kong. Then, just two years before the city was to return to Chinese control, he founded the *Apple Daily* newspaper. Its mix of bold graphics, gossip, local news, and opposition to the Chinese Communist Party was an immediate hit. For more than two decades, Lai used *Apple* and *Next* as part of a personal push for democracy—in weekly columns, at rallies and marches, and, memorably, sitting in front of a tent during the 2014 Occupy Central movement. Lai took his activism abroad, traveling frequently to Washington, where he was well known in Congress and in political circles. China reacted with fury in 2019 when he met with Vice President Mike Pence and Secretary of State Mike Pompeo. A draconian new security law came into effect in Hong Kong in mid-2020, effectively making free speech a crime and censorship a fact. Lai was its most important target. *Apple Daily* was raided on August 10, 2020. He was arrested and held without bail before being convicted of trumped-up charges ranging from lighting a candle ("incitement to riot") to violating a clause in his company's lease ("fraud"). At the end of 2023, a lengthy trial began alleging "collusion with foreign forces" and printing seditious materials. China's most famous political prisoner has been in jail for more than 1,100 days and could spend the rest of his life there. The Troublemaker is his story.

general jack keane political party: **Hard Power** Kurt Campbell, Michael O'Hanlon, 2007-03-09 Our ideas about national security have changed radically over the last five years. It has become a political tool, a wedge issue, a symbol of pride and fear. It is also the one issue above all others that can make or break an election. And this is why the Democratic Party has been steadily losing power since 2001. In *Hard Power*, Michael O'Hanlon, an expert on foreign policy at the Brookings Institution, and Kurt Campbell, an authority on international security at the Center for Strategic and International Studies, explain how the Democrats lost credibility on issues of security and foreign policy, how they can get it back -- and why they must. They recall the successful Democratic military legacy of past decades, as well as recent Democratic innovations -- like the Homeland Security Office and the idea of nation-building -- that have been successfully co-opted by the Republican administration. And, most importantly, they develop a broad national security vision for America, including specific defense policies and a strategy to win the war on terror.

general jack keane political party: Chronology of the U.S. Presidency Mathew Manweller, 2012-03-19 This engaging and authoritative four-volume resource offers fascinating portrayals of the 44 men who have achieved the ultimate seat of power in the United States—the presidency. From George Washington to Barack Obama, *Chronology of the U.S. Presidency* portrays each of the nation's chief executives in richly observed detail. Chapter by chapter, we meet the real flesh-and-blood men occupying the one office elected by the entire country, the office that most profoundly affects the workings of the government, U.S. relations with other countries, and the everyday lives of all American citizens. Spanning four volumes, this work covers each president's early life and rise to power, the pivotal events during his presidency, and when applicable, his

post-presidential life. In addition, the book includes sections on the First Ladies and presidential families plus primary source documents (speeches, memos, messages to Congress), and entertaining FYI facts—for example, once bitter rivals John Adams and Thomas Jefferson died hours apart, on the 50th anniversary of the Declaration of Independence they helped create together. More than just names-and-dates history, Chronology of the U.S. Presidency helps readers understand the ways each of these intriguing men changed the country, and how he in turn was impacted by his time in power.

general jack keane political party: A Military History of the New World Disorder, 1989-2022 Jonathan M. House, 2025-05-06 The collapse of the Soviet Union in 1989 freed the world of the political and military perils and imperatives of the Cold War. But it also introduced a whole new constellation of risks and challenges, as Jonathan M. House brings into sharp relief in *A Military History of the New World Disorder, 1989-2022*, the third and final volume in his comprehensive trilogy of military developments around the globe since the Second World War. What followed the breaking of the Cold War's grip on global affairs was not so much a new world order as a new world disorder, as the United States and its allies suddenly found themselves without the sort of coherent grand strategy previously deployed to contain the Soviet Union. Focusing largely but not exclusively on the US, House surveys subsequent developments in military strategy and operations—the processes by which politicians and military leaders of the major powers designed, organized, resourced, and then employed military forces to conduct or deter conflicts. His overview ranges from conflicts in Iraq and Afghanistan to American interventions in Panama, Somalia, former Yugoslavia, and Haiti; Israel vs. Hezbollah in Lebanon; and the resurgence of the Russian military in Syria, Georgia, and Ukraine. Throughout, House provides a compelling analysis of recent military developments, including the strengths and weaknesses of employing precision-guided munitions, counter-insurgency techniques, and other controversial methods of current warfare. His work reveals the complex relationship between national political decisions to commit armed forces to conflicts and the results on the battlefield—and offers a timely perspective on military power and practice in the current day.

general jack keane political party: The Savior Generals Victor Davis Hanson, 2013-05-14 Stirring portraits of five commanders whose dynamic leadership changed the course of war and history by prominent military historian Victor Davis Hanson. Victor Davis Hanson has written another outstanding and eye-opening book--*The Washington Examiner* Leading military historian Victor Davis Hanson returns to non-fiction in *The Savior Generals*, a set of brilliantly executed pocket biographies of five generals who single-handedly saved their nations from defeat in war. War is rarely a predictable enterprise--it is a mess of luck, chance, and incalculable variables. Today's sure winner can easily become tomorrow's doomed loser. Sudden, sharp changes in fortune can reverse the course of war. These intractable circumstances are sometimes mastered by leaders of genius--asked at the eleventh hour to save a hopeless conflict, created by others, often unpopular with politics and the public. These savior generals often come from outside the established power structure, employ radical strategies, and flame out quickly. Their careers often end in controversy. But their dramatic feats of leadership are vital slices of history--not merely as stirring military narrative, but as lessons on the dynamic nature of consensus, leadership, and destiny.

general jack keane political party: Summary: The War Within BusinessNews Publishing,, 2017-01-30 The must-read summary of Bob Woodward's book: "*The War Within: A Secret White House History 2006-2008*". This complete summary of *The War Within* by Bob Woodward, a renowned American investigative journalist, outlines his account of the workings of the Bush administration from 2006 to 2008 and he addresses questions of leadership, war, governance, and unwarranted secrecy. Added-value of this summary: • Save time • Understand the Bush administration and its controversies • Expand your knowledge of American politics and history To learn more, read *The War Within* and discover the secrets behind Bush's leadership and the actions of his administration.

general jack keane political party: Dangerous Instrument Michael A. Robinson, 2023 As increasingly contentious politics in the United States raise concerns over the politicization of

traditionally non-partisan institutions, many have turned their attention to how the American military has been--and will be--affected by this trend. Since a low point following the end of the Vietnam War, the U.S. military has experienced a dramatic reversal of public opinion, becoming one of the most trusted institutions in American society. However, this trend is more complicated than it appears: just as individuals have become fonder of their military, they have also become increasingly polarized from one another along partisan lines. The result is a new political environment rife with challenges to traditional civil-military norms. In a data-driven analysis of contemporary American attitudes, *Dangerous Instrument* examines the current state of U.S. civil-military affairs, probing how the public views their military and the effect that partisan tribalism may have on that relationship in the future. Michael A. Robinson studies the sources and potential limits of American trust in the armed services, focusing on the interplay of the public, political parties, media outlets, and the military itself on the prospect of politicization and its associated challenges. As democratic institutions face persistent pressure worldwide, *Dangerous Instrument* provides important insights into the contemporary arc of American civil-military affairs and delivers recommendations on ways to preserve a non-partisan military.

general jack keane political party: *From Storm to Freedom* John R Ballard, 2010-04-15 *From Storm to Freedom* analyzes and assesses the strategic interaction between Iraq and the United States from 1990 to 2009, from the perspective of a single, if discontinuous conflict. With this longer-term perspective, covering both Operation Desert Storm and Operation Iraqi Freedom, the book clarifies the long road of war against Iraq. This work recounts presents the evolution of counterinsurgency operations from 2003 to 2009, explains the misunderstanding and miscommunication between government leaders in Iraq and the United States throughout the period and describes the ineffective nature of the UN sanctions, the inefficient efforts of the Clinton Administration and the impact of the preemptive strategy of the Bush Administration that led to conflict in 2002. The book first identifies the influence of the Vietnam era on the use of U.S. military power and the decision for war in 1990. The book then outlines the important factors of Iraqi history and culture which dominated relations between the two nations during the 1980s and 1990s. In subsequent chapters, the 1991 campaign of Desert Storm is analyzed from both the U.S. and Iraqi perspectives; then the military, economic and diplomatic actions of the period between the two more conventional, military parts of the conflict are assessed. The final chapters analyze the highly successful, 2003 conventional campaign from both perspectives; the ineffective post-war stabilization operations in Iraq which began with the failure to transition under the Coalition Provisional Authority; and the eventual development and implementation of a more effective strategy in Iraq - combining new doctrine and a "Surge" of forces to protect the population in a renewed counterinsurgency campaign. In a concluding chapter, the key lessons for the future are reviewed, including the importance of effective strategic decision-making and the mindset required to prosecute modern war.

general jack keane political party: *Lifting the Fog of Peace* Janine Davidson, 2011-08-29 How military organizations trained for conventional war adapt—or fail to adapt—to nontraditional missions

general jack keane political party: *The Good Captain* R.D. Hooker, 2022-06-30 The veteran soldier, Pentagon advisor and White House staffer recounts his long and distinguished military career in this acclaimed memoir. A combat soldier and leader in five wars, R. D. Hooker also served as a White House staff member in four different administrations. He retired in 2010 as the most decorated colonel in the US Army. Beginning with his enlistment at 18 in 1975, this memoir chronicles his experiences in the post-Vietnam Army as a young paratrooper, West Point cadet, and combatant in the many military conflicts which followed. Hooker served in Grenada, Somalia, Rwanda, Bosnia, and Kosovo. He played a key role in the response to 9/11 and returned to combat in Iraq and Afghanistan. He commanded a paratroop company, battalion and brigade and served in the continental US, Latin America, Europe, the Middle East, Africa and Southwest Asia. When not deployed, he taught at West Point and served in several high-level Pentagon assignments and in the

White House in the administrations of George H. W. Bush, Bill Clinton, George W. Bush and Donald Trump. In *The Good Captain*, Hooker recounts his storied career with insights and lessons learned through five different conflicts. He also describes each of these campaigns from a strategic and policy perspective informed by his White House and Pentagon experiences as well as years of academic training.

general jack keane political party: *Army Transformation* United States. Congress. House. Committee on Armed Services, 2005

general jack keane political party: Summary: Rage: Bob Woodward: Disloyal: A Memoir: Michael Cohen: Too Much Is Never Enough: Mary L. Trump: Donald Trump V. The United States: Michael S. Schmidt SCOTT CAMPBELL, 2020-12-01 NOTE: Summaries are not intended to replace or substitute for the original books. Woodward has the scoop no one else does for his book *Rage* because he interviewed Trump 17 times and climbed into his mind and thoughts over seven chaotic months. Trump characterized the way he felt with an apt metaphor: Dynamite behind every door. Michael Cohen, in *Disloyal*, admits he was mesmerized by Trump like a cult member, began to see himself breaking his moral code, but stuck with Trump for money, power, and fame. Cohen boasts that he knew Trump better than his own family, and it was not a pretty sight. He saw Trump as a sociopathic mobster boss who would do anything to win and destroy anybody who challenged him in his quest for success. Cohen dumps a truckload of Trump family skeletons at the reader's feet and then picks them up one by one and executes a meticulous show-and-tell. Mary L Trump, in *Too Much and Never Enough*, claims Trump is an unlovable, bullying, cruel, crass, racist, sociopathic fraud with delusions of grandeur. Rather than working for the American people who voted for him, Mary suggests he is only out for Trump and his children, for the empire, for more power, riches, and fame. In *Trump V. The United States*, New York Times journalist Michael Schmidt investigates Trump as he spats with his government. Many in the FBI--and above-- and House would like to see Trump gone. Schmidt, who won a Pulitzer Prize, takes the biographical perspective for two key players who play significant roles in Trump's affairs: FBI Director James Comey and Senior Legal Counsel Don McGahn. Comey was sure that Trump was obstructing justice for Michael Flynn, and his claims and actions would lead to the Mueller investigation, which consumed two years of the Trump Presidency.

general jack keane political party: Task Force Black Mark Urban, 2025-08-22 The true story of one of the most dramatic and sustained special operations in military history When American and British forces invaded Iraq in March 2003, select teams of special forces and intelligence operatives got to work looking for the WMD their governments had promised were there. They quickly realized no such weapons existed. Instead they faced an insurgency—a soaring spiral of extremism and violence that was almost impossible to understand, let alone reverse. Facing defeat, the Coalition waged a hidden war within a war. Major-General Stan McChrystal devised a campaign fusing special forces, aircraft, and the latest surveillance technology with the aim of taking down the enemy faster than it could regenerate. Guided by intelligence, British and American special forces conducted a relentless onslaught, night after night targeting al-Qaeda and other insurgent groups. Mark Urban's *Task Force Black* reveals not only the intensity of the secret fight that turned the tide in Baghdad but the rivalries and personal battles that had to be overcome along the way. Incisive, dramatic, exceptionally revealing, the war in Iraq cannot be understood without this book.

general jack keane political party: Great Powers Thomas P.M. Barnett, 2009-02-05 From the New York Times bestselling author of *The Pentagon's New Map*, a bold, trenchant analysis of the post-Bush world In *Great Powers*, New York Times bestselling author and prominent political consultant Thomas Barnett provides a tour-de-force analysis of the grand realignments in the post-Bush world-in the spheres of economics, diplomacy, defense, technology, security, the environment, and more. The great powers are no longer just the world's nation- states, but the most powerful and dynamic influences on the global stage, requiring not simply a course correction, but a complete recalibration. Globalization as it exists today was built by America- and now, Barnett says,

it's time for America to shape and redefine what comes next.

general jack keane political party: Battle of the White Apartments JB Garrison, 2022-03-21 President Bush declared the war in Iraq Mission Accomplished in 2005, but Al-Qaeda had other plans. Money, supplies, and soldiers during the 2006 insurgent uprising were easily funneled from Syria along the dangerous highways of Iraq's Al Anbar Province straight into Baghdad, and the sense of victory quickly flipped for the worse during what was tabbed Operation Iraqi Freedom. The insurgency violently rocked the world with gruesome and horrific tactics that included well-trained snipers and dastardly roadside bombers who could carefully place explosives in the early morning hours, some charges powerful enough to easily flip a massive seventy-two-ton American Abrams tank. To further install fear, enemy follow on attacks effortlessly crushed responding coalition forces arriving to the horrendous scenes. The situation in Iraq turned dreadful. American soldiers returned home with severed limbs, scarred beyond belief, or honorably flown to Dover Air Force Base in flag-draped caskets. These were horrible visions that simply traumatized the American public and invoked rage within the ranks. A change of plans was desperately needed and needed quickly. Senior American leadership in Iraq was failing, and a new strategy was desperately needed, specifically in Iraq's dreaded Triangle of Death. The White House and Pentagon were shocked and angered with the tragic and declining progress in Iraq. The president and his top brass agreed with a new challenging plan. This plan would be new strategy involving five additional American combat brigades shuffled throughout Iraq to beef up the fight and return victory that was slipping sideways under the command of a skeptical theater commander, an uncontrollable four-star general with a strange and confusing plan for victory. Additional Iraqi Police and Iraqi Army were needed as well to fight shoulder to shoulder with Americans, and this was needed quickly without any delay. Iraqi Police and Army recruiting was paramount for this new plan. Supplies were needed, funding for the Iraqi workforce was to be guaranteed, and new Iraqi Police stations with roadside checkpoints were demanded to stop the flow of evil that was freely trucked into Baghdad from Iraq's neighboring country of Syria. The surge became a reality at the tail end of 2006, and American combat units were purged into Baghdad, Ramadi, and beyond in record time. Americans lived, worked, and fought with the Iraqi Police and Iraqi Army. Police stations popped up everywhere. Roadside checkpoints supported police stations and chocked any freedom of movement for the fierce enemy that had once freely killed and mutilated hundreds of Americans and Iraqis over the past fifteen months, and the battle of the White Apartments located in southwest Ramadi was the focal point for victory in Anbar and a massive triumph for the First Armored Division's Anbar Awakening that was paired with a company of rugged Indiana Infantry Guardsmen who led the fight with Ramadi's Iraqi Police on that chilly January night. This is a story of the Iraq War, a story of the Iraqi surge and the Cyclone Soldiers that lead it.
