success is the ability to go from failure to failure: The Concept of Service Quality in Commercial Practice Amelikeh Confidence E. N., 2020-07-30 Commercial Practice is the work done for the earning, acquisition, and ownership of existence and within existence! What one acquires, the one is said to own, resulting in the application of ownership to anything at all acquirable, including the slave; however, the slave is held in possession disowned and hence cannot be said to be owned! We cannot accurately say that one owns a slave nor that a slave has owner, when the slave is held disowned! The disowned thing has no owner. The application of ownership to the slave has brought difficulty in telling the relationship between parent and child, husband and wife, employer and employee, and citizen and state, for instance, as a person being owned sounds as the person being a slave. We have redeemed the reality of ownership. There are things one can own and things one cannot own although acquirable: therefore, there are things one has the Right to acquire and things one has no Right to acquire. If you cannot own it and you acquire it then you have stolen it, rendering you a criminal, as theft is a crime! Learn Commercial Practice: it is the legitimate method of acquiring and possessing, and ownership.
