

peter dale scott deep politics

Peter Dale Scott and the Intriguing World of Deep Politics

peter dale scott deep politics is a phrase that resonates deeply within the realms of political analysis, conspiracy theory, and investigative scholarship. Scott, a former diplomat and professor, has carved out a unique niche by exploring the hidden dimensions of power and governance beyond the surface-level narratives we often consume. His work invites us to question the official stories and probe into the unseen forces that shape political events, often referred to as “deep politics.” But what exactly does this term mean, and why has Peter Dale Scott become synonymous with it? Let’s delve into the fascinating world of deep politics through the lens of Scott’s groundbreaking research.

Understanding Peter Dale Scott’s Concept of Deep Politics

At its core, deep politics refers to the study of political practices that operate outside or beneath the official political framework. It involves looking at covert operations, secret alliances, and the shadowy interplay between governments, intelligence agencies, corporate interests, and other influential players. Peter Dale Scott’s deep politics framework challenges the traditional understanding of political power by revealing how much of what happens in the political arena is influenced by hidden agendas and non-transparent actions.

Unlike conventional political science, which often focuses on laws, elections, and public policies, Scott’s approach digs into the murkier aspects of governance. These include state-sponsored covert actions, clandestine networks, and the involvement of the so-called “deep state” — entities within the government that operate independently of elected officials.

The Origins of Deep Politics in Scott's Work

Peter Dale Scott first introduced the term “deep politics” in his efforts to analyze events like the assassination of John F. Kennedy and the Watergate scandal. In his seminal book, **Deep Politics and the Death of JFK**, Scott argued that the official explanations were inadequate and that deeper, often illegal, political mechanisms were at play. This book laid the foundation for a broader inquiry into how power is wielded behind closed doors, often escaping public scrutiny.

Scott's background as a diplomat and professor of English literature gave him a unique perspective, combining rigorous research with a narrative style that makes complex political realities accessible. His scholarship opened up new avenues for understanding how covert actions and political violence are intertwined with mainstream politics.

The Role of Deep Politics in Modern Political Analysis

The concept of deep politics is increasingly relevant in today's world, where political events frequently involve layers of secrecy and manipulation. From whistleblower revelations to investigative journalism exposing hidden agendas, the idea that there is more than meets the eye has gained traction.

How Deep Politics Shapes Public Perception

One of the challenges Scott highlights is how deep political activities are often designed to remain invisible to the public. The use of misinformation, propaganda, and controlled leaks can shape public perception to align with certain interests. This manipulation means that citizens might never fully understand the true motivations behind political decisions or events.

Deep politics also explains why some scandals or covert operations never receive full investigation or media coverage. Powerful institutions have a vested interest in maintaining secrecy, and Scott's work

encourages skepticism and critical thinking when consuming political news.

Examples of Deep Political Events

To better grasp the significance of deep politics, it helps to look at real-world examples that Scott and other scholars have examined:

- **The JFK Assassination:** Scott's detailed investigations suggest involvement of intelligence agencies and other covert actors beyond the official lone gunman narrative.
- **Watergate Scandal:** Beyond the break-in, Watergate revealed a complex web of political espionage and sabotage tied to the Nixon administration.
- **Iran-Contra Affair:** This covert operation involved secret arms deals and funding of rebel groups, bypassing congressional oversight.
- **Post-9/11 Policies:** Some analysts argue that deep political forces influenced the direction of U.S. foreign policy and surveillance measures after the attacks.

These cases showcase the variety of contexts in which deep politics operates – often at the intersection of law, morality, and power.

Peter Dale Scott's Contributions to Political Scholarship

Scott's scholarship has been influential not only in academic circles but also among journalists, activists, and anyone interested in uncovering hidden political dynamics.

Bridging Academia and Investigative Research

What sets Peter Dale Scott apart is his ability to synthesize academic rigor with investigative insight. His methodological approach often includes analyzing declassified documents, insider testimonies, and patterns of political behavior that suggest covert interference.

By emphasizing the continuity of deep political actions over time, Scott challenges the notion that political crises are isolated incidents. Instead, he frames them as part of a broader system of covert governance.

Encouraging Critical Thinking and Awareness

Scott's work serves as a call to action for citizens to remain vigilant and question official narratives. In an era dominated by information overload and disinformation campaigns, understanding deep politics equips individuals with a framework to navigate complex political landscapes.

His insights encourage readers to look beyond headlines and consider the structural and hidden forces shaping policies and events.

How to Approach Deep Politics in Everyday Life

Engaging with Peter Dale Scott deep politics isn't just about academic study; it can also inform how we consume news and participate in democracy.

Tips for Navigating Political Information

- **Seek Multiple Sources:** Avoid relying on a single news outlet; cross-reference information from diverse perspectives.
- **Question Official Narratives:** Look for inconsistencies or gaps in mainstream accounts of political events.
- **Understand Historical Context:** Recognize patterns of covert activity by studying past political crises and scandals.
- **Stay Informed About Declassified Information:** Governments periodically release documents that can shed light on hidden operations.

By adopting these habits, individuals can better understand the complex interplay of visible and invisible forces shaping politics.

The Importance of Transparency and Accountability

While deep politics often involves secrecy, Scott's work underscores the importance of transparency and democratic oversight. Citizens and watchdog organizations play crucial roles in demanding accountability from powerful institutions.

Encouraging whistleblowing protections and investigative journalism are vital tools in exposing deep political activities that undermine democratic principles.

Peter Dale Scott deep politics continues to influence how we interpret political events and power structures. His work challenges us to recognize that beneath the official stories lies a complex web of covert actions and hidden agendas. By embracing a critical mindset and seeking deeper

understanding, we become more informed participants in the political process — equipped to see beyond the surface and engage with the realities of power in our world.

Frequently Asked Questions

Who is Peter Dale Scott and what is his contribution to deep politics?

Peter Dale Scott is a former Canadian diplomat and professor known for pioneering the study of 'deep politics,' which explores the hidden and covert dimensions of political power and state actions beyond official narratives.

What does the term 'deep politics' mean according to Peter Dale Scott?

According to Peter Dale Scott, 'deep politics' refers to the study of political practices and arrangements that are deliberately concealed from the public, including covert operations, state crimes, and the influence of intelligence agencies.

How has Peter Dale Scott's concept of deep politics influenced political analysis?

Scott's concept has encouraged scholars and analysts to look beyond surface-level political events and consider underlying power structures, secret dealings, and the role of clandestine agencies in shaping political outcomes.

What are some key themes in Peter Dale Scott's work on deep politics?

Key themes include the role of the CIA and intelligence agencies in covert operations, the intersection of government and corporate interests, state-sponsored violence, and the hidden mechanisms of state

control.

Can you name a notable book by Peter Dale Scott on deep politics?

One of Peter Dale Scott's notable books is 'Deep Politics and the Death of JFK,' which investigates the hidden political forces behind the assassination of President John F. Kennedy.

How does Peter Dale Scott connect deep politics to historical events?

Scott analyzes major historical events, such as assassinations, coups, and covert wars, showing how deep political forces and clandestine operations have influenced or determined their outcomes.

What role do intelligence agencies play in Peter Dale Scott's deep politics framework?

Intelligence agencies are central in Scott's framework, as they often conduct covert operations and influence political events in ways that are hidden from the public and official history.

How does Peter Dale Scott's deep politics differ from traditional political science?

Unlike traditional political science, which focuses on official policies and institutions, deep politics investigates the unseen, unofficial, and often illegal activities that shape political realities behind the scenes.

Why is Peter Dale Scott's work on deep politics considered relevant today?

Scott's work remains relevant as it sheds light on ongoing issues such as government secrecy, covert interventions, and the complex interplay between power, politics, and hidden agendas in contemporary society.

Peter Dale Scott and the Unveiling of Deep Politics: An Analytical Review

peter dale scott deep politics is a phrase that resonates profoundly within the realms of political science, investigative journalism, and covert historical analysis. Scott, a former Canadian diplomat turned academic and poet, has carved a niche in exploring the shadowy dimensions of political power—often referred to as “deep politics.” His work challenges conventional narratives by exposing the hidden forces, clandestine operations, and covert alliances that shape government policies and geopolitical events beyond public scrutiny.

Understanding the concept of deep politics through Peter Dale Scott’s framework is essential for anyone interested in the interplay between official government actions and the underlying covert agendas that often manipulate public outcomes. This article delves into Scott’s contributions, the defining features of deep politics, and its implications in contemporary political discourse, while weaving in relevant keywords such as “political conspiracies,” “state secrecy,” and “covert operations.”

Exploring the Foundations of Deep Politics

At its core, deep politics refers to the complex network of hidden interests within a state that influence policy decisions without transparency or accountability. Peter Dale Scott popularized this term in his groundbreaking book, **Deep Politics and the Death of JFK** (1993), where he argued that the assassination of President John F. Kennedy was not merely a tragic event but a window into the clandestine workings of the American state apparatus. His thesis posits that certain political outcomes are orchestrated by entrenched power structures involving intelligence agencies, organized crime, corporate interests, and military-industrial complexes.

Scott’s approach contrasts starkly with traditional political analysis, which often focuses solely on surface-level events and public statements. By integrating archival research, firsthand accounts, and

whistleblower testimonies, Scott unveils how deep politics functions as a parallel political system—operating under the radar but influencing mainstream governance.

The Intersection of Deep Politics and Political Conspiracies

One of the most compelling aspects of Scott's work is his balanced approach to political conspiracies. Unlike sensationalist theories, Scott grounds his analysis in documented evidence and methodical investigation. He acknowledges that while not all political conspiracies are valid, many historically significant events—from coups to assassinations—are products of orchestrated covert actions.

For instance, Scott's examination of the Kennedy assassination highlights how intelligence agencies and organized crime may have collaborated to eliminate a president perceived as a threat to entrenched interests. This investigative rigor lends credibility to the study of deep politics, distinguishing it from baseless speculation.

Key Features of Peter Dale Scott's Deep Politics

Understanding Scott's concept involves recognizing several defining characteristics that distinguish deep politics from conventional political analysis:

- **Secrecy and State Illegality:** Deep politics often involves illegal or extralegal activities conducted by state agents or their proxies to maintain power or suppress dissent.
- **Interconnected Power Networks:** It reveals alliances between government agencies, intelligence services, criminal organizations, and private corporations that operate beyond public oversight.
- **Manipulation of Public Narratives:** Deep politics frequently entails orchestrating misinformation campaigns or controlling media narratives to obscure the truth.

- **Continuity Across Administrations:** Unlike surface politics, deep political structures persist across different governments, reflecting long-term strategic interests rather than electoral politics.

These features underscore the systemic nature of deep politics and highlight why it remains difficult to expose or reform.

Peter Dale Scott's Methodology and Influence

Scott's methodology combines interdisciplinary research, including political science, history, and literary analysis, to explore the undercurrents of political power. His background as a poet imbues his writing with a unique narrative style that is both analytical and evocative, making complex subjects accessible to a broader audience.

Moreover, Scott's work has influenced a wide array of scholars and activists concerned with state secrecy and democratic accountability. His analysis has been referenced in debates concerning U.S. foreign policy, intelligence community oversight, and the historical context of political violence.

Contemporary Relevance of Deep Politics

In an era marked by increasing concerns over government transparency, surveillance, and the role of intelligence agencies, the concept of deep politics remains highly relevant. From whistleblower revelations to investigations into covert military operations, Scott's framework helps contextualize ongoing debates about power and secrecy.

For example, the scrutiny of events such as the War on Terror, drone warfare, and election interference can benefit from a deep political analysis that questions not only what is publicly declared but what is hidden beneath official rhetoric. In doing so, stakeholders—from journalists to

policymakers—can better understand the limits of democratic accountability.

Challenges in Studying Deep Politics

Despite its importance, studying deep politics presents inherent challenges:

1. **Access to Information:** The clandestine nature of deep politics makes primary evidence scarce and often classified.
2. **Risk of Misinterpretation:** The complexity of covert operations can lead to oversimplification or conflation with conspiracy theories.
3. **Potential Political Backlash:** Researchers and journalists who probe deeply often face political pressure or discrediting campaigns.

Peter Dale Scott's cautious yet probing approach serves as a model for navigating these pitfalls, emphasizing rigorous documentation and critical skepticism.

Comparative Perspectives: Deep Politics vs. Surface Politics

To fully appreciate Scott's contribution, it is useful to contrast deep politics with what is often termed "surface politics":

- **Surface Politics:** Encompasses visible, public political activities such as elections, legislative debates, and official statements.

- **Deep Politics:** Involves hidden agendas, covert actions, and the shadowy interplay of power that shapes surface politics.

While surface politics is accessible to the public and media, deep politics remains obscured, often resistant to democratic control. Scott's work stresses that ignoring deep politics results in an incomplete and distorted understanding of political reality.

Implications for Democracy and Accountability

The existence of deep politics raises critical questions about democracy and accountability. If significant decisions and actions occur beyond public view, how can citizens hold their governments responsible? Scott's scholarship implicitly calls for greater transparency and institutional reforms to mitigate the influence of covert power structures.

At the same time, the balance between national security and openness remains a contentious debate. Deep politics highlights the tension between necessary secrecy in intelligence operations and the dangers of unchecked power.

Peter Dale Scott's exploration of deep politics provides a vital lens through which to examine the hidden mechanisms of political power. His work not only challenges mainstream narratives but also encourages a more nuanced and critical engagement with political events. As global politics grows increasingly complex, the insights derived from Scott's deep political analysis remain crucial for understanding the often unseen forces that shape our world.

Peter Dale Scott Deep Politics

peter dale scott deep politics: Deep Politics and the Death of JFK Peter Dale Scott, 1993
Meticulously documented investigation uncovering the political secrets surrounding John F. Kennedy's assassination.

peter dale scott deep politics: The War Conspiracy Peter Dale Scott, 2013-09-01 Peter Dale Scott examines the many ways in which war policy has been driven by "accidents" and other events in the field, in some cases despite moves toward peace that were directed by presidents. This book explores the "deep politics" that exerts a profound but too-little-understood effect on national policy outside the control of traditional democratic processes. An important analysis into the causes of war and the long-lasting effects that major events in American history can have on foreign and military policies, *The War Conspiracy* is a must-read book for students of American history and foreign policy, and anyone interested in the ways that domestic tragedies can be used to manipulate the country's direction. First published in 1972, this edition of *The War Conspiracy* is fully updated for the twenty-first century and includes two lengthy additional essays, one on the transition in Vietnam policy in the wake of the Kennedy assassination, and the other discussing the many parallels between that 1963 event and the attacks of 9/11.

peter dale scott deep politics: Denken wie der Feind - Teil 2 Lars Schall, 2021-04-11
Denken wie der Feind - Teil 2 ist eine Monografie zu den Angriffen vom 11. September 2001 und dem daraus resultierenden globalen Krieg gegen den Terror. Minutiös recherchiert und dokumentiert, präsentiert es etliche Lücken in der offiziellen Version der Ereignisse und trägt Informationen zusammen, welche so noch nie in Deutsch zur Verfügung standen, beispielsweise im Zusammenhang mit der Tatsache, dass in den USA seit 9/11 ein permanenter Notstand besteht, der das amerikanische Verfassungssystem teilweise aushebelt. Ausführlich kommen zahlreiche nordamerikanische Experten zu Wort, viele von ihnen erstmals überhaupt in deutscher Sprache.

peter dale scott deep politics: *The Radical Right and the Murder of John F. Kennedy* Harrison E. Livingstone, 2004 *The Radical Right and the Murder of John F. Kennedy: Stunning Evidence in the Assassination of the President* Harrison E. Livingstone's major new book, the fifth of his works on the death of JFK, brings together for the first time all of the central evidence demonstrating a domestic Right Wing conspiracy rooted in Texas which assassinated the President on November 22, 1963. The book represents forty years of work. The book discusses in great detail the actual medical evidence and the forgery of the autopsy photographs and X-rays, which Mr. Livingstone first exposed, the alteration of the autopsy report, the framing of the designated patsy, Lee Harvey Oswald, and the substitution and fabrication of every single piece of evidence. It discusses the role played in the murder by some of the most powerful men in the country: Lyndon Johnson, J. Edgar Hoover, and Richard Nixon, as well as the rich oil men and companies who backed them. It then describes the cover-ups by the media, the major investigations over the years, the FBI, and the mind-control cooperation at work in the case to misdirect researchers and the public. The book describes in great detail the people and companies in Texas who planned and carried out the assassination. It names names. One recent investigation in the 90s followed Mr. Livingstone's preceeding work and reinvestigated with the witnesses both he and the official investigations had talked to, but this time took into consideration their documentation and what they had actually said, and in a chapter this is his stunning new evidence from the U.S. government under President Clinton that is blowing the lid off the case. Mr. Livingstone first revealed to the Washington press corps in 1998 that there has been such a secret investigation, and spoke for fifty minutes when the Assassination Records Review Board gave their final press conference. As a result, Mr. Livingstone was on all major TV networks and on the Today show (NBC) with Katie Couric the next morning. The book also contains the story of Dallas doctor Charles Crenshaw's law suit and the depositions of the editor and writer of the Journal of American Medical Association who libeled him in articles in 1992. Dr. Crenshaw's book about trying to save Kennedy at Parkland Hospital shortly after the shooting

came out on the same day as Mr. Livingstone's major work on the medical evidence, High Treason 2, were JAMA's targets, and the depositions contain much discussion of Mr. Livingstone's major impact on the JFK case. This new book is to be followed closely by a sixth book entirely about the Zapruder film, called The Hoax of the Century: Decoding the Forgery of the Zapruder Film.

peter dale scott deep politics: Oswald, Mexico, and Deep Politics Peter Dale Scott, 2013-09-01 Peter Dale Scott has written extensively on the Kennedy assassination and other dark corners of the American political scene. His encyclopedic knowledge enables him to connect the dots among the players, the organizations, and the unacknowledged collusions—the deep politics— of our often troubled political system. Deep Politics on Oswald, Mexico, and Cuba, originally published in 1995, narrows the focus of Scott's earlier Deep Politics and the Death of JFK. Scott delivers the most detailed treatment yet of the mysterious sojourn of Lee Harvey Oswald (or someone using his name) to Mexico City in the fall of 1963. Was this trip a key aspect of the framing of Oswald, was it an approved intelligence operation, or was it perhaps both? It is now known that allegations of Communist conspiracy in the wake of the JFK assassination, emanating mostly from Mexico City, caused Lyndon Johnson to put together a "blue ribbon commission" to investigate what happened in Dallas. Scott explains through meticulous research and analysis exactly why LBJ would want the Warren Commission to rush to a conclusion, and the far-reaching political ramifications of the commission's public findings. Scott's analysis suggests the evidence from Mexico City was part of a frame-up, making Deep Politics on Oswald, Mexico, and Cuba an essential piece of research and analysis, shedding new light on the Communist conspiracy allegations behind the JFK assassination.

peter dale scott deep politics: Verschwörungen, Verschwörungstheorien und die Geheimnisse des 11.9. Mathias Bröckers, 2017-02-28 Als am 11.9.2001 wie aus heiterem Himmel Flugzeuge das World Trade Center und das Pentagon angriffen, waren Amerika und die Welt entsetzt über die Heimtücke dieses Anschlags. Und sofort standen die Täter und der Feind fest: Osama Bin Laden und seine islamistische Al Qaida. George W. Bush verkündete den Weltkrieg gegen den internationalen Terrorismus, für den es vorher kaum Unterstützung gegeben hätte. Inzwischen mehren sich die Indizien: Die US-Regierung war über den Angriff vorinformiert. Mathias Bröckers, Wissenschaftsautor, Journalist und langjähriger Kultur-Chef der Taz, misstraute von Anfang an dem einstimmigen Chor der Medien. Im Online- Magazin telepolis (als unbestechlich und fachmännisch auf hohem Niveau ausgezeichnet mit dem Grimme Preis Online Award 2002) führte er über seine Recherchen monatelang eine Art Fahndungsprotokoll, das, millionenfach angeklickt, heiße Debatten auslöste und - bedeutend erweitert und vertieft - bei Zweitausendeins als Buch erschienen ist. Es dokumentiert: Der 11.9. ist nicht nur das Datum eines entsetzlichen Massenmordes, sondern auch Kristallisationspunkt bizarrer Ungereimtheiten, fantastischer Widersprüche, verschwiegener Hintergründe und strategischer Geheimdienstoperationen. - Gehört ein so hochexplosiver Stoff in die Hände eines Zivilisten?, fragte die Frankfurter Allgemeine besorgt. - Bröckers fragt, wer die faktischen Nutznießer der Terroranschläge sind, und er bringt andere notorisch Verdächtige ins Spiel. Nicht um seinerseits Verschwörungstheorien in die Welt zu setzen, sondern um das Verschwörungsdenken als skeptische Wissenschaft fruchtbar zu machen. Das erste Buch von Mathias Bröckers Verschwörungen, Verschwörungstheorien und die Geheimnisse des 11.9.

peter dale scott deep politics: Notizen zur jüngeren Weltgeschichte Lars Schall, 2022-04-12 Die in diesem Buch versammelten Aufsätze gehen unter anderem folgenden Fragen nach: Wer den berühmten Paragraphen 231 des Versailler Vertrags schrieb, ob US-Firmen von der Kriegsmaschinerie Nazi-Deutschlands profitierten, welche Bank das Privatvermögen des Schahs von Persien handhabte, wohin der Kampf von Martin Luther King Jr. kurz vor dessen gewaltsamen Tod strebte, welche elitäre Gruppe dem Euro auf die Beine half, ob der Goldpreis manipuliert wird, wie die Gewinner der US-Finanzkrise heißen und ob es die Geldschöpfung ex nihilo gibt.

peter dale scott deep politics: Die Politik des Tiefen Staats der USA Peter Dale Scott, 2023

peter dale scott deep politics: One Nation Under Blackmail - Vol. 1 Whitney Alyse Webb, 2022-10-20 Exposes vastly under-explored topics compared to other media reports and books on Jeffrey Epstein How did Jeffrey Epstein manage to evade justice for decades? Who enabled him and

why? Why were legal officials told that Epstein “belonged to intelligence” and to back off during his first arrest in the mid-2000s? Volume 1 of *One Nation Under Blackmail* traces the origin of the network behind Jeffrey Epstein and his associates to the merging of organized crime and intelligence networks during World War II and follows their most notable activities through the decades. Various scandals, acts of corruption and other crimes throughout the last several decades of American history, many involving sex blackmail, can be traced back to these same networks, which have subverted and taken control of many of America's most important institutions for their benefit, and to the detriment of the public.

peter dale scott deep politics: Encyclopedia of Global Justice Deen K. Chatterjee, 2012-01-23 This two-volume *Encyclopedia of Global Justice*, published by Springer, along with Springer's book series, *Studies in Global Justice*, is a major publication venture toward a comprehensive coverage of this timely topic. The *Encyclopedia* is an international, interdisciplinary, and collaborative project, spanning all the relevant areas of scholarship related to issues of global justice, and edited and advised by leading scholars from around the world. The wide-ranging entries present the latest ideas on this complex subject by authors who are at the cutting edge of inquiry. The *Encyclopedia* sets the tone and direction of this increasingly important area of scholarship for years to come. The entries number around 500 and consist of essays of 300 to 5000 words. The inclusion and length of entries are based on their significance to the topic of global justice, regardless of their importance in other areas.

peter dale scott deep politics: The Imperialist Question in Middle East and North Africa Matteo Capasso, Ali Kadri, 2025-10-27 This book reveals how today's devastating conflicts across Gaza, Syria, and the broader Middle East represent imperialism in its most destructive form. Leading Area Studies scholars move beyond fragmented analyses to examine how US-led imperial power functions as a comprehensive system—from Tunisia's financial dependency to the weaponization of feminist discourse in justifying violence. Central to this analysis is the concept of “accumulation by waste,” demonstrating how systematic destruction has become imperialism's primary mechanism for maintaining regional control. Through diverse case studies spanning North Africa to the Arabian Peninsula, the authors illuminate how military interventions, financial domination, and ideological warfare work in concert to preserve Western hegemony. Yet this collection also documents emerging alternatives: from Palestinian resistance in Gaza to China's development model, pathways beyond imperial control are taking shape. This book is essential reading for anyone seeking to understand the forces shaping our world and the struggles necessary to transform it. This volume speaks to students, scholars, and policymakers across International Relations, Political Economy, Marxist Studies, Middle Eastern Studies, and Critical Security Studies. Originally published as a special issue of *Middle East Critique*, this edition features three additional chapters and a thoroughly updated introduction that addresses recent developments across the region.

peter dale scott deep politics: Escape Into the Future John Stroup, Glenn W. Shuck, 2007 *Escape into the Future* analyzes the power of pessimism, showing links between present-day religious pessimism and the nihilism of popular culture. Stroup and Shuck rummage through an interesting and eclectic body of pop culture—from *Fight Club* to *X-Files* to the *Left Behind* series—pointing out the presence of pessimistic themes throughout. This volume identifies and illuminates the religious language used in these works to articulate America's need to escape from its present cultural path and, ultimately, provide hope that it might do so.

peter dale scott deep politics: Cruel Harvest Julien Mercille, 2012-12-09 This book lifts the lid on the reality of Afghanistan's growing drug trade and the role played by the US military in its trajectory. Where conventional accounts blame the Taliban for the expansion of drug production, *Cruel Harvest* shows that the US shares responsibility by supporting drug lords, refusing to adopt effective drug control policies and failing to crack down on drug money laundered through Western banks. Julien Mercille argues that the best way to address drug problems is by reducing demand in consumer countries, not by conducting fruitless and damaging counter narcotics missions in

Afghanistan.

peter dale scott deep politics: A Tale of Two Factions Joseph P. Raso, 2020-09-03 Updated and now in its second edition, this book explores the two power factions that have dominated US politics and society from the early postwar period to the present. Their think tanks, foundations, and media are examined along with their powerful international networks. Foreign interventions and recent factional conflict are also investigated in the final chapters before developments shaping the United States and the world, including the threat of a neo-totalitarian future, are discussed in the concluding pages. A scholarly yet readable study, the author tackles the topic with a nonpartisan approach but grounded in the values of democracy, liberty, and promotion of the public interest.

peter dale scott deep politics: Hijacking America's Mind On 9/11 Elias Davidsson, 2013 An international researcher of long date and an expert in international law and human rights, the author's approach to the questions of 9/11 is essentially forensic. The book is narrative in style yet is highly factual and heavily annotated.

peter dale scott deep politics: Ultimate Sacrifice Lamar Waldron, Thom Hartmann, 2013-08-22 Drawing on seventeen years of research, thousands of recently declassified files, and dozens of interviews, *Ultimate Sacrifice* re-creates and, in many ways, rewrites the crucial period of our history leading up to November 22 1963. In the process, this groundbreaking account provides the missing pieces to the greatest tragic puzzle of post-war America: the true circumstances behind the assassination of President John F. Kennedy. · *Ultimate Sacrifice* details a previously unknown "Plan for a Coup in Cuba" authorized by President John Kennedy, run by Attorney General Robert Kennedy and set for December 1, 1963. · The Kennedy plan, unique and different from any previously disclosed operation, was – as detailed in a Joint Chiefs of Staff memo – to have included a "palace coup", a provisional Cuban government and, if necessary, a "full-scale invasion" by "invited" US military forces. · The CIA's code name for their part of the operation, AMWORLD, has never previously surfaced in any government investigation, nor in any book or article, making it one of the most covert operations in United States history. · *Ultimate Sacrifice* will detail how the Kennedy plan was penetrated by three mafia godfathers – Carlos Marcello, Santo Trafficante, and Johnny Roselli – being vigorously pursued by Attorney General Robert Kennedy, along with a dozen of their associates, six of whom were also working on the Coup plan. · The crime bosses then used parts of the Coup Plan/AMWORLD to arrange JFK's assassination in a way that would prevent a truly thorough government investigation in order to protect the Coup Plan, its participants, and national security. · By using the secrecy surrounding the Plan, the mob bosses would target JFK not only in Dallas but in two earlier attempts, one in Chicago on November 1 and then one in Tampa on November 18, which *Ultimate Sacrifice* reveals for the first time in any book. · *Ultimate Sacrifice* has finally pieced together the whole story by building on the work of the seven governmental committees that have investigated aspects of the assassination, on the work of former government investigators, and on the four million documents that were declassified in the 1990s, in addition to exclusive interviews with dozens of witnesses and participants including Secretary of State Dean Rusk, Press Secretary Pierre Salinger, and the Kennedys' closest Cuban exile aide, Harry "Ruiz" Williams.

peter dale scott deep politics: The Concealment of the State Jason Royce Lindsey, 2013-08-01 Concealing the state frees us from admitting the unpleasant truth-in today's world we are utterly dependent upon the state's increasingly frantic efforts to control risk. To this end, states have created systems of coercion and surveillance that are difficult to reconcile with our theories of political legitimacy. The dominant ideology of contemporary politics has become the concealment of the state's overwhelming power and role in daily life. We prefer the comfortable illusion that we are autonomous individuals pursuing our plans in a free market. If we hold fast to that idea, then our distance from policy makers and dwindling political influence seems less important. Nonetheless, this book draws upon the anarchist tradition and a wide range of accessible policy examples (ranging from military organization and environmental regulations to scientific investment and education) to reveal the active role of contemporary states behind this ideological screen. Lindsey

argues that we need a new politics that focuses on exposing and challenging the contemporary state's hidden agency. Otherwise, how can we democratically control the state when it denies, from the outset, having the ability to meet our demands?

peter dale scott deep politics: *War and State Terrorism* Mark Selden, Alvin Y. So, 2004-10-26
If the past hundred years will be remembered as a century of war, Asia is surely central to that story. Tracing the course of conflicts throughout the region, this groundbreaking volume is the first to explore systematically the nexus of war and state terrorism. Challenging states' definitions of terrorism, which routinely exclude their own behavior, the book focuses especially on the nature of Japanese and American wars and crimes of war. The authors also assess significant acts of terror instigated by other Asian nations including China, Cambodia, and Indonesia. Offering a rare comparative perspective, the authors consider how state terror leads to massive civilian casualties, crimes of war, and crimes against humanity. In counterbalance, they discuss anti-war and anti-nuclear movements and international efforts to protect human rights, and the interwoven issues of responsibility, impunity, and memory. Interdisciplinary and deeply informed by global perspectives, this volume will resonate with readers searching for a deeper understanding of an epoch that has been dominated by war and terror.

peter dale scott deep politics: *Die bellizistische Republik* Rüdiger Bergien, 2012-03-07
Hinter der geheimen Aufrüstung der Weimarer Republik stand ein lagerübergreifender Wehrkonsens. Die Republikaner sahen sie in den Krisen der ersten Jahre als Form des Republiksschutzes an. Später blieb die Unterstützung bestehen, obwohl die geheime personelle Rüstung zur Hochburg eines staatsfeindlichen Paramilitarismus wurde.

peter dale scott deep politics: *Unbecoming Nationalism* Helene Vosters, 2019-09-04
Canada's recent sesquicentennial celebrations were the latest in a long, steady progression of Canadian cultural memory projects. *Unbecoming Nationalism* investigates the power of commemorative performances in the production of nationalist narratives. Using "unbecoming" as a theoretical framework to unsettle or decolonize nationalist narratives, Helene Vosters examines an eclectic range of both state-sponsored social memory projects and counter-memorial projects to reveal and unravel the threads connecting reverential military commemoration, celebratory cultural nationalism, and white settler-colonial nationalism. Vosters brings readings of institutional, aesthetic, and activist performances of Canadian military commemoration, settler-colonial nationalism, and redress into conversation with literature that examines the relationship between memory, violence, and nationalism from the disciplinary arenas of performance studies, Canadian studies, critical race and Indigenous studies, memory studies, and queer and gender studies. In addition to using performance as a theoretical framework, Vosters uses performance to enact a philosophy of praxis and embodied theory.
